DAILY GAZETTE.

Correspondence of the Cleveland Plaindealer.
One of the Cleveland Home Guards.

The moment the flag was threatened large bodies of men were called upon to rally in its defence. Being a large bodied man, I rallied and enrolled myself with the Home Guards. The drill is very severe on me this hot weather, although I am constantly allowed an attendant with a fan and a pitcher of ice water. I am a living paradox, for while getting *Hardee* I am daily growing weak. Talk about "the times that tried men's souls," these are the times that try men's fat if they have got any. The captain *takes pleasure in putting me thro'* at a double quick. When I go off I think will be with a "double quick" consumption.

I am constantly reminded that one of the first requirements of a soldier is to throw out his chest and draw in his stomach.—Having been burned out several times while occupying rooms in the attic, I had considerable practice in throwing out my chest, but by what system of practice could I ever hope to draw in my stomach? I can't "dress up"—it's no use trying. If my vest buttons are in line I am far in the rear, and if I toe the mark a fearful bulge indicates my position. (There is no room for argument in regard to my sentiments—everybody can see at a glance just where I stand.) One evening we had a new drill sergeant who was near sighted. Running his eye down the line he exclaimed, sharply, "What is that man doing in the ranks with a bass drum?" He pointed at me, but I hadn't any drum, it was the surplus stomach that I couldn't draw in.

I am the butt of numberless jokes, as you may well suppose. They have got a story in the guards that when I first heard the command—"Order Arms"—I dropped my musket, and taking out my notebook began to draw an order on the gove nor for what arms I wanted. They say I ordered the Winan's steam gun, with a pair of Dahlgren howitzers for side arms. Base fabrications. My ambition never extended beyond a rifled cannon, and they knew it.

Although in respect to size I belong to the "heavies," my preference is for the Light Infantry service. My knapsack is marked Light Infantry. One evening spectators appeared convulsed about something and my comrades tittered by platoons whenever my back was turned. It was all a mystery to me until I laid off my knapsack.—Some wretch had erased the two final letters and I had been parading all the evening labeled "LIGHT INFANT!" The above is one of the thousand annoyances to which I am subjected, and nothing but my consuming patriotism could ever induce me to submit to it. I rallied at the call of my country and am not to be put out by the *rallying* of my comrades.

I overheard a spectator inquire of the drill Sergeant one day, "Do you drill the whole of him at once?"

"No," he returned, in an awful whisper, "*I drill him by squads!*"

I would have drilled him if I had had a bayonet.

Specifications have been published in regard to my uniform and contractors advertised for. The making will be let out to the lowest responsible bidder. In case the Guards are ordered to take the field a special commissary will be detailed to supply my rations. That reminds me of a harrowing incident. On last drill night an old farmer, who dropped in to see us drill, took me aside and said he wanted to sell me a yoke of powerful oxen.

"My ancient agriculturist," said I, smiling at his simplicity, "I have no use for oxen."

"Perhaps not at present," quoth he, "but if you go to war you will want them."

"For what?" said I, considerably annoyed.

"*Want 'em to draw your rations!*"

The Guards paid me a delicate compliment at the last meeting. They elected me "Child of the Regiment" with the rank of First Corpulant, and the pay of chief "Blower." I was about to return thanks in a neat and appropriate speech when a reporter who was present assured me it was no use—he had got the whole thing in type, speech and all, and I could read it in the evening paper. He said they kept a "neat and appropriate speech," standing in type continually. I got his views and held my peace. Yours for the Union, including the Stars, also the Stripes,

FAT CONTRIBUTOR.

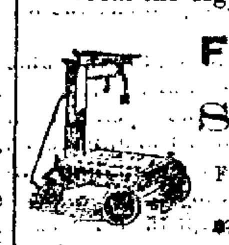

HOW CARTRIDGES ARE MADE.—The operation of cartridge-making I may briefly describe. The first operation consists in uniting a moderately stiff manilla wrapping paper into pieces two and a half inches long by one and a half wide. These are folded into a thimble or a cap, into one end of which is placed the conical minie bullet. A more pliable piece of wrapping paper some three inches by five, is rolled round the cap and bullet, the end of the wrapper being drawn, by a very ingenious process, tightly over the point of the bullet, and tied so as to render the end perfectly tight.

The bullets weigh an ounce, and are really ugly customers to contemplate.—They are greased before being put in the cartridge, which has the effect of clearing the musket in frequent and rapid firing. The cartridge tubes, with ball at the closed end, are then taken in shallow boxes, and standing upright, are, by an ingenious contrivance, filled with the necessary charge of powder, being poured from a kind of kettle. The powder and ball just fill the inner thimble or tube. The long end of the outer wrapper is then folded over, and they are packed in bunches of ten, with a small package containing twelve percussion caps. The packages are again placed in boxes of one hundred, ready for transportation. When the soldier has occasion to load his musket, he takes from his pouch one of these cartridges, bites off the folded end, and turns the contents into the muzzle of the gun.

The common vocabulary in all languages is limited. An agricultural laborer employs about three hundred words, an eloquent speaker often uses ten thousand.—The bible contains six thousand. Milton uses eight thousand and Shakspeare fifteen thousand.

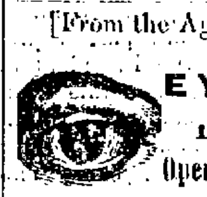

A traveler who has just returned from the west, relates an incident which illustrates the spirit of patriotism prevailing in that section. Stopping at a little town, of apparently but a few hundred inhabitants, he inquired if any volunteers had gone to the war from that town. "I reckon there has, stranger. We've sent two companies, and have got another as mad as hornets because they can't go."—*Springfield (Mass.) Republican.*

TESTIMONIAL.
To Whom it May Concern:
I AM now over 60 years of age. Three years since I became blind from Cataract in both eyes. Soon after I became blind an attempt to restore my sight by an operation was made in this city, which was unsuccessful. Hearing of the reputation of Dr. Folsom, as a skillful oculist, I was induced to consult him, though with very little hopes of relief. The doctor proposed an operation, to which I consented, which resulted in almost Perfect Restoration of Sight to one eye. Hereafterwards performed an operation on the other eye with success. I am now enjoying the inestimable blessing of good vision, and a much better general state of health than before. THOS. VAUGHN.

DAILY GAZETTE.

Correspondence of the Cleveland Plaindealer.
One of the Cleveland Home Guards.

The moment the flag was threatened large bodies of men were called upon to rally in its defence. Being a large bodied man, I rallied and enrolled myself with the Home Guards. The drill is very severe on me this hot weather, although I am constantly allowed an attendant with a fan and a pitcher of ice water. I am a living paradox, for while getting *Hardee* I am daily growing weak. Talk about "the times that tried men's souls," these are the times that try men's fat if they have got any. The captain takes pleasure in putting me thro' at a double quick. When I go off I think will be with a "double quick" consumption.

I am constantly reminded that one of the first requirements of a soldier is to throw out his chest and draw in his stomach.—Having been burned out several times while occupying rooms in the attic, I had considerable practice in throwing out my chest, but by what system of practice could I ever hope to draw in my stomach? I can't "dress up"—it's no use trying. If my vest buttons are in line I am far in the rear, and if I toe the mark a fearful bulge indicates my position....(There is no room for argument in regard to my sentiments—everybody can see at a glance just where I stand.) One evening we had a new drill sergeant who was near sighted. Running his eye down the line he exclaimed, sharply, "What is that man doing in the ranks with a bass drum?" He pointed at me, but I hadn't any drum, it was the surplus stomach that I couldn't draw in.

I am the butt of numberless jokes, as you may well suppose. They have got a story in the guards that when I first heard the command—"Order Arms"—I dropped my musket, and taking out my note-book began to draw an order on the governor for what arms I wanted. They say I ordered the Winan's steam gun, with a pair of Dahlgren howitzers for side arms. Base fabrications. My ambition never extended beyond a rifled cannon, and they knew it.

Although in respect to size I belong to the "heavies," my preference is for the Light Infantry service. My knapsack is marked Light Infantry. One evening spectators appeared convulsed about something and my comrades tittered by platoons whenever my back was turned. It was all a mystery to me until I laid off my knapsack.—Some wretch had erased the two final letters and I had been parading all the evening labeled "LIGHT INFANT!" The above is one of the thousand annoyances to which I am subjected, and nothing but my consuming patriotism could ever induce me to submit to it. I rallied at the call of my country and am not to be put out by the *rallying* of my comrades.

I overheard a spectator inquire of the drill Sergeant one day, "Do you drill the whole of him at once?"

"No," he returned, in an awful whisper, "*I drill him by squads!*"

I would have drilled him if I had had a bayonet.

Specifications have been published in regard to my uniform and contractors advertised for. The making will be let out to the lowest responsible bidder. In case the Guards are ordered to take the field a special commissary will be detailed to supply my rations. That reminds me of a harrowing incident. On last drill night an old farmer, who dropped in to see us drill, took me aside and said he wanted to sell me a yoke of powerful oxen.

"My ancient agriculturist," said I, smiling at his simplicity, "I have no use for oxen."

"Perhaps not at present," quoth he, "but if you go to war you will want them."

"For what?" said I, considerably annoyed.

"*Want 'em to draw your rations!*"

The Guards paid me a delicate compliment at the last meeting. They elected me "Child of the Regiment" with the rank of First Corpulant, and the pay of chief "Blower." I was about to return thanks in a neat and appropriate speech when a reporter who was present assured me it was no use—he had got the whole thing in type, speech and all, and I could read it in the evening paper. He said they kept a "neat and appropriate speech," standing in type continually. I got his views and held my peace. Yours for the Union, including the Stars, also the Stripes,

FAT CONTRIBUTOR.

HOW CARTRIDGES ARE MADE.—The operation of cartridge-making I may briefly describe. The first operation consists in cutting a moderately stiff manilla wrapping paper into pieces two and a half inches long by one and a half wide. These are folded into a thimble or a cap, into one end of which is placed the conical minie bullet. A more pliable piece of wrapping paper some three inches by five, is rolled round the cap and bullet, the end of the wrapper being drawn, by a very ingenious process, tightly over the point of the bullet, and tied so as to render the end perfectly tight.

The bullets weigh an ounce, and are really ugly customers to contemplate.—They are greased before being put in the cartridge, which has the effect of clearing the musket in frequent and rapid firing. The cartridge tubes, with ball at the closed end, are then taken in shallow boxes, and standing upright, are, by an ingenious contrivance, filled with the necessary charge of powder, being poured from a kind of kettle. The powder and ball just fill the inner thimble or tube. The long end of the outer wrapper is then folded over, and they are packed in bunches of ten, with a small package containing twelve percussion caps. The packages are again placed in boxes of one hundred, ready for transportation. When the soldier has occasion to load his musket, he takes from his pouch one of these cartridges, bites off the folded end, and turns the contents into the muzzle of the gun.

The common vocabulary in all languages is limited. An agricultural laborer employs about three hundred words, an eloquent speaker often uses ten thousand.—The bible contains six thousand. Milton uses eight thousand and Shakspeare fifteen thousand.

A traveler who has just returned from the west, relates an incident which illustrates the spirit of patriotism prevailing in that section. Stopping at a little town, of apparently but a few hundred inhabitants, he inquired if any volunteers had gone to the war from that town. "I reckon there has, stranger. We've sent two companies, and have got another as mad as hornets because they can't go."—*Springfield (Mass.) Republican.*

TESTIMONIAL.
To Whom it May Concern:

I AM now over 60 years of age. Three years since I became blind from Cataract in both eyes. Soon after I became blind an attempt to restore my sight by an operation was made in this city, which was unsuccessful. Hearing of the reputation of Dr. Folsom, as a skillful oculist, I was induced to consult him, though with very little hopes of relief. The doctor proposed an operation, to which I consented, which resulted in almost Perfect Restoration of Sight to one eye. He afterwards performed an operation on the other eye, with success. I am now enjoying the inestimable blessing of good vision, and a much better general state of health than before. THOS. VAUGHN.

The Daily Gazette.

City of Janesville.

Wednesday Evening, July 17, 1861.

Official Paper of the City.

Forever float that standard sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

From Missouri.

The rebels are still active on the Missouri river, and at scattered places in various parts of the state. There has been some fear, of late, of an attack on Jefferson City. There are two regiments of troops there besides a home guard of a thousand men.

The traitors will require two or three more good thrashings, before they will keep quiet in Missouri, and the most prominent points must be occupied by a sufficient body of troops to overawe them until they come to their senses. Perhaps hanging would do some of them good.

Forward to Richmond.

The country will learn with much satisfaction that the grand army at Washington commenced its forward movement towards Fairfax Court House on Tuesday night.—The news was received last night and it is confirmed to-day, so there is little room to doubt the truth of the statement.

Now that an advance has been made, we may expect that the march will be rapid, that as much of the fighting may be done, as possible, before the expiration of the term of enlistment of many of Gen. McDowell's troops, which takes place within the next fortnight.

Militia of the Seas.

The recent activity manifested by Jeff Davis' privateers, has called the attention of congress to the proposition to employ a volunteer navy. We have no doubt, if proper encouragement were given, it would rival our volunteer army in importance. We believe that it is fortunate that these piratical excursions have taken place at this time; it will be the cause of speedily developing one of our most important means of national defence, aided and encouraged by proper congressional legislation.

The expense and danger of a standing army has made it unpopular with the American people; to take its place in time of public danger they have inaugurated the volunteer system, which can be maintained in a state of efficiency without great expense to the public treasury. The cost of armies is weighing down the governments of Europe, and must be dispensed with, or they will ruin the nations who employ them. So with navies: England and France are expending untold sums of money upon great ships of war. The contest will cost them millions of money, and will bankrupt both nations if persisted in. It is evident that the United States cannot and ought not to take part in this contest of extravagance in building a navy. We must build large ships, it is true, for special service, but to have enough of them to defend our extensive sea coast and enormous commerce, scattered on every sea, will cost more than we can pay. Some other scheme must be adopted. As we have dispensed with a large standing army by adopting the volunteer system on the land, so we must on the sea. We are well situated to do this, as our mercantile marine is larger than that of any nation of the world—more active, braver and more enterprising. It is by this fortunate position which we occupy that we may now adopt a system which will give us the supremacy of the seas. This is one of the grand ideas of our time, and if our rulers are equal to the occasion, we shall lay the foundation of American greatness, on the sea as well as on the land, by our volunteer system for both.

Our merchant ships, now lying idle, might be commissioned to capture privateers, which are generally of the same kind and size. Armed with rifled cannon, our vessels could be used to blockade the southern coast, and be able to penetrate bays and creeks where large vessels of war would not float, and thus aid materially in suppressing the rebellion.

The far west is interested in this matter. The price of wheat is now lower, by a large per cent. than it would be if the privateers had not infested the ocean, making freights higher, on account of the high rates of insurance, or by giving the monopoly of the carrying trade to England. We are therefore directly interested in having a "militia of the seas" able to clear the ocean of all pirates and every foe to a free intercourse with the old world.

ROBBERY IN KENOSHA.—The Kenosha Telegraph says, a gentleman from New York was knocked down on Main street in Kenosha, a few nights since, about midnight, and robbed of a gold watch, by some two or three men. He was left bleeding on the sidewalk, and with much difficulty managed to reach the City Hotel.

FIFTH REGIMENT.—On mustering this regiment into the U. S. service, only four were rejected, and three refused to take the oath; the latter were subjected to rather severe treatment and concluded afterwards that they would enlist for the war—but the regiment refused to admit them.

Among the goods destroyed by the late terrible fire in London were 17,764 bales of India cotton.

Special dispatches to the Cincinnati Gazette.

The Battle of Cheat River.

CARRICK'S FORD, July 14.

On the night of the 11th, the rebel army at Laurel Hill, under the command of Brig. Gen. Garnett, evacuated its camp in great haste, immediately on learning of Gen. McClellan's approach to Beverly, and retreated in that direction, apparently hoping to pass Beverly before Gen. McClellan's arrival, and thus escape the trap set for them by a passage through Cheat Mountain Gap.

The evacuation was discovered on the morning of the 12th, and a pursuit immediately ordered.

By 10 o'clock the 9th Indiana entered the rebel camp at Laurel Hill, and found a large number of tents, a lot of flour, camp equipage and clothing, and a dozen of their sick and wounded, with a note requesting us to give them proper attention.

The whole road, for twenty miles, was strewn with the baggage thrown from their wagons to lighten the loads and hasten their retreat, and obstructed fallen trees to delay pursuit.

The rebel army went within three miles of Beverly, and there met the rebels flying from Rich Mountain, and, finding an escape to Huttonsville impossible, all united and returned toward Laurel Hill until they reached the Leading Creek pike, and took that road in the direction of St. George.

Gen. Morris' army pursued them for a mile or two beyond Leedsville that night, and halted from 11 o'clock to 3 this morning, when the advance resumed the pursuit and continued it all day, in spite of the incessant rain pouring down. On the route of the rebel army, the latter left the pike, struck Cheat river, and pursued the mountain road down the valley. Their passage with heavy wagon trains rendered the road almost impassable. They were still without food—some for over twenty-four hours.

Our advance, composed of the Fourteenth Ohio, Seventh and Ninth Indiana regiments, pushed on, guided through the mountain gullies by the tents, camp furniture, provision and knapsacks thrown from the rebels' wagons to facilitate their flight. We forded Cheat River four times, and finally, about one o'clock, came up with the enemy's rear guard and wagons. The Fourteenth Ohio advanced rapidly to the ford, in which wagons were standing, when suddenly the rebel army opened a furious fire on them from the bluff on the opposite side of the river, where they had been concealed. with small arms and two rifled cannon.

Fortunately most of their firing was a little too high. The Fourteenth returned it with spirit. Meanwhile two pieces of the Cleveland artillery came up and opened on the rebels, and the Ninth Indiana advanced to support the Fourteenth Ohio's left, while the Seventh Indiana marched down the river, between the two fires and came in on the rebel's right flank. The rebels then fled in great disorder, leaving their finest piece of artillery.

At the next ford, perhaps a quarter of a mile further on, Gen. Garnett attempted to rally his forces, when the Seventh Indiana came up in hot pursuit, and another brisk little engagement ensued. Gen. Garnett was finally shot dead, when his army fled in wild confusion towards St. George.

The Seventh Indiana pursued them a mile or two further, but our forces were so exhausted with their forced march of twenty miles to-day, with but little rest from yesterday's march, that Gen. Morris refused to let them pursue further.

The results of the whole affair are the capture of the rebel camp at Laurel Hill; the total route of their army; the capture of a large amount of their tents and camp equipage; forty of their baggage wagons; the field camp chest, supposed to contain all their money; two regimental banners, one of them that of the Georgia regiment; fifty or more prisoners, including four Georgia captains and lieutenants, and a large number of Virginia officers; the death of Brig. Gen. Garnett and twenty of his men, and the wounding of a much larger number.

Our loss is wholly in the 14th Ohio regiment: 2 killed—Samuel Mills, of Co. A, and Henry Richeldiffer, of Co. C; 2 fatally wounded—John Kirighanos, of Co. A, by a ball through the chest, and Daniel Mills, of Co. A, by four severe wounds by shell; and about fifteen others wounded, but not fatally.

Our forces are now engaged in burying their dead. Gen. Garnett is lying at headquarters. His body is to be sent to his family at Richmond.

Garnett's army at Laurel Hill numbered about 5,000. It was increased by the rebels routed from Rich Mountain, and diminished by the numerous desertions. Along the line of retreat the woods are filled with deserted rebels, and our men are ordered to stop arresting prisoners, because we cannot take care of them. Three times as many as we hold would have been taken but for this.

There must have been over 4,000 rebels on the bluff commanding our position who opened fire on the fourteenth Ohio, and the distance was little over two hundred yards.

Their artillery was rapidly served, but aimed about two feet too high, cutting off trees at that distance above the heads of our boys. Some of their shells burst near our ranks, doing considerable damage.—Our advance, which alone entered the engagement, numbered hardly 2,000.

It is hoped that Gen. McClellan, or the forces at Rowlesburg, may cut off the retreat of the remainder, and secure the few baggage wagons left. The rebel army was composed mostly of Georgians and eastern Virginians. Col. Ramsay, of the Georgia regiment, succeeds Gen. Garnett in their command. The Georgians had all been moved to Laurel Hill, direct from Pensacola.

GRAFTON, July 15.

Coming through the field of battle of Cheat River yesterday, with Major Gordon, who had charge of the corpse of Gen. Robert S. Garnett, we learned that the rebel army had left the remainder of their baggage train and artillery at a point two miles from St. George. Word was instantly sent back to Gen. Morris, and all is probably now captured.

The rebels are greatly disorganized, and heading for Hardy county. It is hoped that General Hill, now at Oakland, may be able to intercept them.

IN A FIX.—The men in the 3d regiment were paid off Monday, one-third currency and the remainder gold. The boys were troubled because they could not get their $20 gold pieces broken, and felt as bad as though they had not been paid, since they could not spend it. Many of them did a noble act by sending their earnings home to sisters and mothers.—*Fond du Lac Reporter.*

THE NORTHERN FORTS TO BE PUT UPON A WAR FOOTING.—The Champion Citizen learns that Fort Montgomery, at Rouse's Point, Vt., is to be placed on a war footing at once, and that active preparations to that end are in progress. The government probably thinks it well, in view of the "precautionary" increase of British forces in Canada, to take precautionary measure for the protection of the frontier.

The disunionists of Kentucky say they are not for *secession*, but they are *for going with the south.* "Will you have me?" said John to Julia. "No," said she, "I will not have you—but you may have me!"—*Louisville Journal.*]

BY TELEGRAPH.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

Last Night's Report.

WASHINGTON, July 16.

HOUSE.—Mr. Bingham, from committee on judiciary, introduced a bill for the suppression of the rebellion.

The President is authorized to call out the militia for this purpose, and their continuance in service is not to extend beyond sixty days after the commencement of the regular session of congress, unless the latter shall otherwise direct.

The militia are to be entitled to the same pay and rations as the regular service.

The bill passed under the operation of the previous question, almost unanimously.

Mr. Blair, from committee on military affairs, reported back the senate bill authorizing the president to accept the services of 500,000 volunteers to aid in the enforcement of the laws, etc., and proposed for it a substitute similar to the bill passed previously, and which allows the President to select major and brigadier generals from the line of the army, to command volunteers; these officers to assume their former places at the expiration of the year. The bill passed.

Mr. Stevens, from committee on ways and means, reported the senate's amendments to the loan bill, which, at their recommendation, were all concurred in.

Mr. Wright introduced a bill authorizing the secretary of the treasury to issue exchange bills to the amount of $500,000,000. Referred to the committee on ways and means.

Mr. Washburne, from committee on commerce, said they were ready to report on the resolution for clearing the sea of pirates and making the blockade more effective, and as there was immediate necessity for its passage, hoped the house would proceed to consider it.

JEFFERSON CITY, July 16.

The detachment from here returned from Tipton at 10 o'clock last night. They surrounded the town and captured eighteen rebels.

Citizens of Pettis county arrived this morning, who say that four hundred secessionists are assembled near Georgetown, with three pieces of artillery. Their numbers are constantly increasing.

CLEVELAND, July 16.

Fourth Wisconsin regiment arrived at 2 P. M. They leave for the east via Dunkirk at 6 P. M. All well. Had a fine reception and refreshments here.

NEW YORK, July 16.

Privateers of the Savannah will be arraigned to-morrow.

A Frenchman, charged with having served the rebels at the siege of Fort Sumter, is in custody.

WASHINGTON, July 16.

A naval militia is to be extemporized to sweep the ocean of privateers and for blockading.

FORT MONROE, July 15.

Russell left here for Washington. He says American camps are worse than those of the Crimea.

Special Despatch to the Chicago Times.

CAIRO, July 15.

You are already advised of the arrival of two hundred horses and mules at Bird's Point. The arrival of two hundred wagons is now expected daily. The exact use these are to be put to is not known. By many it is conjectured that their collection indicates a movement soon in the direction of the rebel camps at Point Pleasant and Pocahontas.

A boy arrived here yesterday from Stoddard county, who says there are about "ten acres" of men in the vicinity of "Negro Wool Swamp," and that among the number he saw hundreds of Indians. He seemed very honest, yet his story was deemed unworthy of attention.

Col. Pitcher, U. S. A., arrived here last evening. He comes for the purpose of swearing the troops into the three years' service.

ST. LOUIS, July 16.

A fourth regiment, under Lieut. Col. Helmer, crossed the Missouri River into Calloway county.

A party of secessionists fired from the bushes, killing the horse of an officer, and escaped.

The soldiers arrested all persons living in the neighborhood.

Six miles above St. Charles, the train carrying Col. Smith's St. Louis Zouaves was fired into.

Privates Sullivan and O'Connell were wounded—one dangerously.

The enemy escaped before the soldiers could attack them.

ST. LOUIS, July 16.

The report that ex-senator Green violated his parole is untrue.

J. W. Tucker, late editor of the State Journal, is making violent secession speeches in the country.

Col. Steifle's 5th regiment reserve corps, arrived from Lexington to-day, and report having captured two hundred kegs of powder, thirty-three muskets, one cannon, a quantity of machinery for boring and a mould for casting cannon, and several other contraband articles.

NEW YORK, July 16.

Gov. Hicks and Gen. Banks had a conference to-day.

A man, while hurrahing for Jeff. Davis, while quietly passing, was knocked senseless by a pistol in the hands of a policeman.

BALTIMORE, July 16.

Gov. Hicks was serenaded to-night. He expressed his unalterable devotion to the Union, and felt more than ever convinced that Maryland's only safety was in the Union.

HARRISBURG, July 16.

Col. Chas. J. Biddle, commanding the reserve force lately encamped at Cumberland, occupied New Creek Bridge on Sunday, by order of Gen. McClellan; Col. Kane, of the same brigade, occupied Piedmont; and Capt. Irwin took his post at New Creek Village.

The enemy precipitately retreated on the approach of the forces. Capt. Taylor pursued and captured a wagon filled with plunder.

On Monday morning the enemy attacked Capt. Irwin's position, but were vigorously repulsed, leaving two dead, and carrying away some wounded.

LOUISVILLE, July 16.

A disturbance was threatened at the Louisville and Nashville Ralroad depot last night in consequence of the seizure of a trunk full of Hardee's Tactics. It was quelled by the presence of armed men, who volunteered to assist in carrying out the orders of Surveyor Cotton.

Captain Trabue shot Capt. C. L. Thomasson, at Camp Jo. Holt, on the Indiana side of the Ohio River, this P. M. The wound was slight. They were both Captains of companies in General Rosseau's Kentucky Brigade, and the difficulty arose from some of Trabue's men going into Thomasson's camp. Trabue was arrested and taken to the Indiana Penitentiary at Jeffersonville.

The Portsmouth (Va.) correspondence of the Richmond Examiner says: "The first rifled cannon was turned out at the navy-yard yesterday, and in a few days they will be able to supply long-range cannon to the Confederacy as fast as wanted."

The Galveston Civilian says that the blockade of that port was rendered complete on the 2d of July by the arrival of the United States steamer South Carolina, Capt. Alden. She had captured the sloops Dart, Shark, Falcon, and two others.

LOUISVILLE, July 16.

A special to the New Orleans Picayune from Fairfax says that, by mistake, on the 4th of July, South Carolina and Virginia detachments had an encounter, killing two and wounding one Virginian.

The Augusta (Ga.) Constitutionalists of the 9th, noticing the visit from ex-Governor Morehead, says that Morehead states that an overwhelming majority of the people of Kentucky are at heart in favor of uniting their destinies with the confederate states, but that the loyal influences wielded by the enemy, and the efficiency of their arms, place Kentucky under temporary restraint.

The Louisville volunteers for the confederate army, who had left for Camp Boone, near the northern line of Tennessee, are returning daily in considerable numbers, dissatisfied with the work assigned them, and disgusted with their fare. A large portion of them say that they do not want to hear anything more about Jeff. Davis and the southern confederacy.

JEFFERSON CITY, July 16.

The mail carrier reports that Maj. Harris, with a force of over 3,000 men, was at Wood Springs, twelve miles beyond Fulton, on the Mexico road, at 11 o'clock this morning.

Col. McNeil arrived at New Bloomfield at noon, and expected to reach Fulton to-night.

The houses along the road were deserted in consequence of groundless fears on the part of the people.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DESPATCHES.

BUFFALO, July 17.

The 4th Wisconsin Regiment unexpectedly arrived here this morning. They were received by Buffalo Tigers and breakfasted. They leave by the Erie road this forenoon.

WASHINGTON, July 16.

Times' despatch.—The army in Virginia to-day took up the line of march for Richmond, via Fairfax and Manassas. The force starting to day is fully 50,000 strong; the number reaching by actual count about 53,000.

Col. Burnside's Brigade went over Long Bridge at 4 o'clock this afternoon and struck the road for Fairfax Court House. The 27th New York, Col. Slocum, went over at 5 o'clock and also took the Fairfax route.

Herald's despatch.—The discovery of a pass to enter the Rappahannock river on the person of a man recently found at Richmond, and the effort of the rebels to create a difficulty in consequence between the British minister and our government, has, on investigation, turned out to be a very shrewd rebel trick, to involve our government in a quarrel with England.

Tribune's Dispatch.—The columns this P. M. probably moved only to advanced pickets.

To-morrow morning at early dawn they will pass forward upon the enemy.

The first fighting will probably take place at Fairfax Court House, where there are 9 rebel regiments.

It is believed that the design of our generals is to avoid Mannasses Junction, and if possible, circumvent it.

A positive intention is, however, no delays, but to push vigorously south, and fight their way to Richmond.

It is also supposed that a movement to this important point will not be direct, but by flank, and that our columns will pass around the city and approach it from the south, after cutting off all communications.

The report that the Hon. Jos. Holt of Kentucky, will be appointed Justice of Supreme Court is without foundation. There will probably be no new appointments until the court has been organized.

Information received here to-day states that the rebel forces at Occaquin, Dumfries and one or two other points on the Potomoc, have been removed to Manassas Junction.

Reports from Arizonia and New Mexico report the secession feeling in those territories very strong, the inhabitants being mainly settlers from Texas. It will be necessary to send U. S. troops to Fort Bliss to suppress them.

From intelligence received here last night by mail from Vera Cruz, it is stated and believed that J. T. Pickett, late consul of United States to Vera Cruz, was recently in this city—having gone up to the Mexican capital as diplomatic agent of the rebels, with the hope of circumventing Minister Corwin in his negotiations.

WASHINGTON, July 16.

The army has advices that Gen. McDowell left at 3:30 p. m. to go *somewhere.*

The first brigade of the 5th division is commanded by Brig. Gen. Lewis.

This forward movement had a wonderful effect upon the sick list. It has nearly cleared out the hospitals.

World's Correspondence.—All militia of eastern Virginia are ordered to march for Staunton.

The Times says Mr. Schenck, of Indiana 11th congressional district, has been appointed aid on Gen. Fremont's staff and accepted the appointment.

AFTERNOON DESPATCHES.

WASHINGTON, July 17.

HOUSE.—Mr. Henry May appeared and was qualified by taking the oath to support the constitution.

Mr. Holman introduced a resolution authorising the select committee heretofore appointed, to examine into war department contracts to be made, and that committee have meetings during recess.

WASHINGTON, July 17.

Special to Commercial.—A message to the war department says Fairfax Court House was occupied at sunrise. The rebels having previously abandoned the place.

CINCINNATI, July 17.

On Friday night a detachment of 3 companies of Col. Woodruff's 2d Kentucky regiment attacked 600 rebels between Mad River and Barbourville, on the Kanawha river, completely routing them. Ten or twelve rebels killed and a number wounded. The Kentuckians had 2 killed.

Gen. Cox's brigade was rapidly moving up the Kanawha.

ST. LOUIS, July 17.

Mr. Hayard, superintendent of Hannibal & St. Joseph railroad, just from Hannibal, received the following dispatch previous to leaving that place:—

HUDSON, July 16.

Eight hundred federal troops came up ahead of the passenger train this a. m. as far as Milleville, 30 miles above St. Charles, on the north Missouri railroad, where the tracks were torn up, and troops fired into. Engagement resulted in 7 rebels killed, and several taken prisoners.

One man caught with a gun in his hands was immediately hung; another in attempting to escape was riddled with balls.

Fighting still continued when the passenger train passed up.

Federals lost 3 killed and 7 wounded.—Thirty horses captured: Strength of rebels unknown.

FORTRESS MONROE, July 16.

The 3rd and 4th Massachusetts regiments, whose three months' time is up, leave for Boston at once.

Brigadier General Pierce will return home.

Several companies went out from Newport News last night to suppress, if possible, a body of light horse, who have for some time hovered in the vicinity. They had not returned at the departure of the morning boat from Newport News.

PHILADELPHIA, July 17.

A gentleman of this city, who left Richmond on the 9th inst., and escaped via Tennessee, arrived here this morning. He says when he left there were about 10,000 troops in Richmond and several fortified camps commanding the approaches, with heavy batteries—one on Acquia Creek road of heavy guns. There were three regiments at Hoffing Grove out of the city, and two regiments of flying artillery near Rocket. Regiment after regiment arriving via Nashville. Five regiments with a small baggage train left Richmonn on the 8th to reinforce Gen. Johnston. He estimates that there are not less than 60,000 men under Gen. Beauregard at and around Manassas Junction, and reinforcements of militia are being forwarded daily. It is reported, but discredited, that there were 10,000 at Acquia Creek.

Andersons & Tredegar have turned out several cannon, also a large number of gun carriages, shot and shell per week.

Sloat's former sewing machine factory has been turned into an armory, and was engaged in manufacturing guns, cavalry and artillery equipage, etc. There was a great scarcity of leather and oil cloth, but some establishment had recently received a supply of leather from Kentucky.

Three barrels of oil had just been received at Richmond bearing mark of Philadelphia.

A man named DeBow has been erecting a percussion cap machine which turns out 300,000 caps daily. He is also engaged in building three more. He experiences difficulty in obtaining detonating powder. A man from New Orleans was engaged making it.

DeBow is also constructing telegragh instruments, and recently constructed an infernal machine. He has gone to Norfolk to give it a test.

Steamer Yorktown has been mounted with eight 64-pounders at Richmond. The estimated number of men at Yorktown was 15,000 and from 10,000 to 20,000 at Norfolk.

Troops from Pensacola at Richmond generally concur in the impossibility of taking Pickens. It is said they were induced to come north from representations that Fort Monroe would fall an easy prey.

Provisions are at present plenty in Richmond.

WASHINGTON, July 17.

The Republican this morning says that the general movement was in the direction of Fairfax Court House, which is no great distance from the left of Gen. McDowell's, though it is near 14 miles from the extreme right. The army will halt for night this side of Fairfax Court House.

The enemy will probably take occasion to evacuate to-night and resume their march in the morning.

The Intelligencer says an officer just arrived here last night direct from Martinsburg yesterday morning. He says General Johnson broke up his camp at Bunker Hill on Monday, and commenced retreat of his whole army towards Winchester.

Gen. Patterson, with his entire force immediately went in pursuit, and was about 11 miles in the rear of Johnson.

Correspondence of the Cincinnati Commercial.

CAMP BUCKHANNON, July 6.

A CONTRABAND COOK WHO DID'NT KNOW HIS MASTER.—The boys are fond of chickens—not particular whether they are spring chickens, or even chickens, so they come under the general denomination "poultry." Without license they entered sundry barnyards, and the camps are now sprinkled with feathers enough to stuff the bedticks of a large and respectable family. One farmer complained that a pair of sheep had mysteriously disappeared from his fold.—The fleece was traced to the camp of a Buckeye regiment, and it is presumed the flesh went the way of of the fowls. A stout male "contraband" suddenly disappeared from his master in an inexplicable sort of a way. He was afterwards discovered harmlessly pursuing the vocation of cook in the camp of the 19th Ohio. Sambo was suddenly confronted with his master, in the presence of Gen. McClellan. Quoth our legal military Lt. Col. Key, "What's your name, boy?" "Pompey Johnson, sah?" reglied Sambo. "Where are you from?" continued the Colonel. "Johnstown, Cumberland county, state of Ohio," said the nigger with sublime audacity. "Do you know that man?" asked the Colonel, designating Sambo's master. The darkey eyed his master coolly from head to foot, as if he was preparing to swear to his inches, and without winking responded—"No sah! dun 'no' him. Nebber seed him 'fore. Stranga to me, sah?" "Why, you rascal," interposed his master, "I raised you—bought you when you were nine years old; every body in town knows you're my nigger."—"Dun 'no' you, sah! Stranga to me, sah! I'se free cullud pusson, sah! Cum from 'hio, sah, wid de soldiers." The neighbors identified Pompey [as the claimant's chattel, and he was remanded to servitude, when he suddenly regained his consciousness and retired obediently. He had been captured from his master, a secessionist, by some of the lads of the 19th who desired him for a cook, and had instructed him to play the part he assumed. The darkey, however, mistook the name of the county he was to hail from, substituting Cumberland for Trumbull.]

AN OLD SOLDIER KILLED ON THE CARS.—On Saturday afternoon as the wood train on the Milwaukee & Prairie du Chien R. R. was coming from Milton, a man got aboard without leave of the conductor, and took a seat on the platform car, the most of the cars being loaded with old iron rails. When about four miles west of Waukesha a stake came out, letting the fore end of a T rail down on to the ties, striking with such force as to send it through the end boards put up at the rear end of the car, hitting this man on the back part of his head and killing him instantly. He was knocked off the cars and the rear car passed over him, crushing both legs. The body was taken to Waukesha where it was examined by the authorities. He was buried at Waukesha on Sunday morning. He was a man about forty years old, tall and slim built, about six feet in height, and would weigh about 160 pounds, light sandy hair, with whiskers clear around the chin, no mustaches. He told the boys on the train that he had been in the regular army, among the Indians in the west for the last twenty years, and had got dismissed on account of having the rheumatism, and was now on his way to Buffalo.—*News this morning.*

Peter Van Buskirk, of Washington, is 99 years old. He was on the revolutionary pension list as a private. As such he has received $5 a month. But he claimed to have been assistant-forage master, and he recently found the evidence to establish his claim. He is therefore awarded arrearages to the amount of $16,200.—*Albany Evening Journal.*

WOUNDED.—In the list of wounded at Williamsport, is the name of William A. Mathews, formerly of Oconto, but now of the First Wisconsin Regiment. It will be remembered that he wrote the article from the camp which was published in the Pioneer two weeks ago. The account does not say that he was dangerously wounded, and we hope to hear of him being up and on duty before a great while. He's a brave soldier.—*Oconto Pioneer.*

Important to Farmers!

WOODRUFF'S
Patent Portable
BAROMETER.

Cheapness, Accuracy, Simplicity, Durability, Portability and Beauty of Finish Combined.

INVENTED BY
L. WOODRUFF,
for many years Practical Meteorologist of the
SMITHSONIAN INSTITUTE.

It Tells you when to expect Rain!
It Tells you when to expect Fair Weather!
It Tells you when to expect Wind!

It tells you your height above the level of the sea, or as compared with your neighbors!
Its use will add five per cent to the value of your crops by enabling you to secure them uninjured by storms!
In England and on the Continent, where art and science, as applied in aid of labor, are in some branches at least far ahead of our own country, the Barometer is to be found in the hands of almost every husbandman. Its convenience and utility are just as well recognized as that of the clock.
Experience shows that wherever the Barometer has has been introduced in this country, it is equally satisfactory. In fact it is a necessity in our proverbially variable climate, for in Wisconsin alone millions of bushels of grain have been lost through the lack of some reliable means of foretelling the weather. Depending as it does upon the well known natural law that no atmospheric change can occur without destroying its equilibrium, thus producing a change in its density and weight, which, by its action upon the sensitive surface of the mercury, is infallibly indicated by the rise or fall of the column, it will at once be seen that when properly constructed, the slightest change in the weather will be preceded by a change in the Barometer.
While to the farmer it is indispensable, oftentimes saving many times its cost in a single day, to the painter, builder, master carpenter, brick-moulder, and all other out-door workmen and mechanics, it is of scarcely less importance; and in short, there is no class in community to whom it would not sooner or later save many times its expense. Schools should not consider their apparatus complete without it.
We claim for this instrument the following merits in preference to all other instruments of the kind:
1st. Its cheapness. Until recently the Barometer has been so difficult of construction and so costly as to place it beyond the reach of all but the wealthy; but this instrument is sold so low as to be within the means of all, being by far the cheapest reliable Barometer extant.
2d. Its portability. A great difficulty in obtaining these instruments heretofore has been that they could not be transported, its extreme delicacy of construction rendering it necessary to be made and adjusted in the place where used; but by a simple arrangement this instrument can be rendered in a moment perfectly portable, so that it can be subject to the roughest usage without injury.
3d. Its durability. No wood or leather is used about the cistern, which is wholly of cast iron, forming the most durable instrument of the kind possible.
4th. It is a Mercurial Cistern Barometer, which is the only form endorsed by the highest scientific authority. The ordinary cheap Barometers and all Aneroid or dial-faced Barometers have been condemned as unreliable by the U. S. Coast Survey, and Smithsonian Institute, Washington.
5th. Its simplicity. While it combines with all the real improvements that have been given to the instrument for two centuries, other and valuable improvements possessed by no other, it is the simplest possible form of Barometer.
6th. It is not affected by the change of temperature as are the Union and other Barometers, (thus rendering it necessary to adjust them every time an observation is taken, and then it is only an approximate one,) but is acted upon solely by the different degrees of density of weight of the air, as affected by various atmospheric phenomena.
7th. Its thorough workmanship and beautiful finish render it at once highly ornamental, accurate and durable, while the addition of a Themometer Index, and Vernier scale upon a brass plate, render it by far the most complete instrument of the kind ever offered to the public.
Premiums have been awarded it by the New York, Michigan and U. S. Agricultural Societies, over all competitors.

Prof. J. C. Holmes, State Agricultural College, Lansing, Mich., says:—"The Barometer you made for me has proved to be an excellent instrument. It is perfectly accurate. I would recommend a trial of one to every farmer."

Says Hon. H. Greeley:—"There is no article so much needed among farmers as a good Barometer. You ought to sell ten thousand of them this present season in the state of New York alone. The fact that times are hard and money scarce, is only additional reason why farmers should purchase them as an article of economy in saving their crops from damage and waste."

The following scientific gentlemen, with many others, have permitted the use of their names as references:
GEO. P. WILLIAMS, LL. D., Prof. Natural Philosophy and Mathematics, Univerity of Michigan; S. H. DOUGLASS, A. M., M. D., Prof. of Chemistry, University of Michigan; E. S. CARR, M. D., Prof. of Natural Science, Wisconsin State University.
Having secured the Agency for Rock county, I am about canvassing for subscribers. Orders will be filled at any time desired.

The Daily Gazette.

City of Janesville.

Wednesday Evening, July 17, 1861.

Official Paper of the City.

Forever float that standard sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

From Missouri.

The rebels are still active on the Missouri river, and at scattered places in various parts of the state. There has been some fear, of late, of an attack on Jefferson City. There are two regiments of troops there besides a home guard of a thousand men.

The traitors will require two or three more good thrashings, before they will keep quiet in Missouri, and the most prominent points must be occupied by a sufficient body of troops to overawe them until they come to their senses. Perhaps hanging would do some of them good.

Forward to Richmond.

The country will learn with much satisfaction that the grand army at Washington commenced its forward movement towards Fairfax Court House on Tuesday night.—The news was received last night and it is confirmed to-day, so there is little room to doubt the truth of the statement.

Now that an advance has been made, we may expect that the march will be rapid, that as much of the fighting may be done, as possible, before the expiration of the term of enlistment of many of Gen. McDowell's troops, which takes place within the next fortnight.

Militia of the Seas.

The recent activity manifested by Jeff Davis' privateers, has called the attention of congress to the proposition to employ a volunteer navy. We have no doubt, if proper encouragement were given, it would rival our volunteer army in importance. We believe that it is fortunate that these piratical excursions have taken place at this time; it will be the cause of speedily developing one of our most important means of national defence, aided and encouraged by proper congressional legislation.

The expense and danger of a standing army has made it unpopular with the American people; to take its place in time of public danger they have inaugurated the volunteer system, which can be maintained in a state of efficiency without great expense to the public treasury. The cost of armies is weighing down the governments of Europe, and must be dispensed with, or they will ruin the nations who employ them. So with navies: England and France are expending untold sums of money upon great ships of war. The contest will cost them millions of money, and will bankrupt both nations if persisted in. It is evident that the United States cannot and ought not to take part in this contest of extravagance in building a navy. We must build large ships, it is true, for special service, but to have enough of them to defend our extensive sea coast and enormous commerce, scattered on every sea, will cost more than we can pay. Some other scheme must be adopted. As we have dispensed with a large standing army by adopting the volunteer system on the land, so we must on the sea. We are well situated to do this, as our mercantile marine is larger than that of any nation of the world—more active, braver and more enterprising. It is by this fortunate position which we occupy that we may now adopt a system which will give us the supremacy of the seas. This is one of the grand ideas of our time, and if our rulers are equal to the occasion, we shall lay the foundation of American greatness, on the sea as well as on the land, by our volunteer system for both.

Our merchant ships, now lying idle, might be commissioned to capture privateers, which are generally of the same kind and size. Armed with rifled cannon, our vessels could be used to blockade the southern coast, and be able to penetrate bays and creeks where large vessels of war would not float, and thus aid materially in suppressing the rebellion.

The far west is interested in this matter. The price of wheat is now lower, by a large per cent. than it would be if the privateers had not infested the ocean, making freights higher, on account of the high rates of insurance, or by giving the monopoly of the carrying trade to England. We are therefore directly interested in having a "militia of the seas" able to clear the ocean of all pirates and every foe to a free intercourse with the old world.

ROBBERY IN KENOSHA.—The Kenosha Telegraph says, a gentleman from New York was knocked down on Main street in Kenosha, a few nights since, about midnight, and robbed of a gold watch, by some two or three men. He was left bleeding on the sidewalk, and with much difficulty managed to reach the City Hotel.

FIFTH REGIMENT.—On mustering this regiment into the U. S. service, only four were rejected, and three refused to take the oath; the latter were subjected to rather severe treatment and concluded afterwards that they would enlist for the war—but the regiment refused to admit them.

Among the goods destroyed by the late terrible fire in London were 17,764 bales of India cotton.

Special dispatches to the Cincinnati Gazette.

The Battle of Cheat River.

CARRICK'S FORD, July 14.

On the night of the 11th, the rebel army at Laurel Hill, under the command of Brig. Gen. Garnett, evacuated its camp in great haste, immediately on learning of Gen. McClellan's approach to Beverly, and retreated in that direction, apparently hoping to pass Beverly before Gen. McClellan's arrival, and thus escape the trap set for them by a passage through Cheat Mountain Gap.

The evacuation was discovered on the morning of the 12th, and a pursuit immediately ordered.

By 10 o'clock the 9th Indiana entered the rebel camp at Laurel Hill, and found a large number of tents, a lot of flour, camp equipage and clothing, and a dozen of their sick and wounded, with a note requesting us to give them proper attention.

The whole road, for twenty miles, was strewn with the baggage thrown from their wagons to lighten the loads and hasten their retreat, and obstructed fallen trees to delay pursuit.

The rebel army went within three miles of Beverly, and there met the rebels flying from Rich Mountain, and, finding an escape to Huttonsville impossible, all united and returned toward Laurel Hill until they reached the Leading Creek pike, and took that road in the direction of St. George.

Gen. Morris' army pursued them for a mile or two beyond Leedsville that night, and halted from 11 o'clock to 3 this morning, when the advance resumed the pursuit and continued it all day, in spite of the incessant rain pouring down. On the route of the rebel army, the latter left the pike, struck Cheat river, and pursued the mountain road down the valley. Their passage with heavy wagon trains rendered the road almost impassable. They were still without food—some for over twenty-four hours.

Our advance, composed of the Fourteenth Ohio, Seventh and Ninth Indiana regiments, pushed on, guided through the mountain gullies by the tents, camp furniture, provision and knapsacks thrown from the rebels' wagons to facilitate their flight. We forded Cheat River four times, and finally, about one o'clock, came up with the enemy's rear guard and wagons. The Fourteenth Ohio advanced rapidly to the ford, in which wagons were standing, when suddenly the rebel army opened a furious fire on them from the bluff on the opposite side of the river, where they had been concealed, with small arms and two rifled cannon.

Fortunately most of their firing was a little too high. The Fourteenth returned it with spirit. Meanwhile two pieces of the Cleveland artillery came up and opened on the rebels, and the Ninth Indiana advanced to support the Fourteenth Ohio's left, while the Seventh Indiana marched down the river, between the two fires and came in on the rebel's right flank. The rebels then fled in great disorder, leaving their finest piece of artillery.

At the next ford, perhaps a quarter of a mile further on, Gen. Garnett attempted to rally his forces, when the Seventh Indiana came up in hot pursuit, and another brisk little engagement ensued. Gen. Garnett was finally shot dead, when his army fled in wild confusion towards St. George.

The Seventh Indiana pursued them a mile or two further, but our forces were so exhausted with their forced march of twenty miles to-day, with but little rest from yesterday's march, that Gen. Morris refused to let them pursue further.

The results of the whole affair are the capture of the rebel camp at Laurel Hill; the total route of their army; the capture of a large amount of their tents and camp equipage; forty of their baggage wagons; the field camp chest, supposed to contain all their money; two regimental banners, one of them that of the Georgia regiment; fifty or more prisoners, including four Georgia captains and lieutenants, and a large number of Virginia officers; the death of Brig. Gen. Garnett and twenty of his men, and the wounding of a much larger number.

Our loss is wholly in the 14th Ohio regiment: 2 killed—Samuel Mills, of Co. A, and Henry Richeldiffer, of Co. C; 2 fatally wounded—John Kirighanos, of Co. A, by a ball through the chest, and Daniel Mills, of Co. A, by four severe wounds by shell; and about fifteen others wounded, but not fatally.

Our forces are now engaged in burying their dead. Gen. Garnett is lying at headquarters. His body is to be sent to his family at Richmond.

Garnett's army at Laurel Hill numbered about 5,000. It was increased by the rebels routed from Rich Mountain, and diminished by the numerous desertions. Along the line of retreat the woods are filled with deserted rebels, and our men are ordered to stop arresting prisoners, because we cannot take care of them. Three times as many as we hold would have been taken but for this.

There must have been over 4,000 rebels on the bluff commanding our position who opened fire on the fourteenth Ohio, and the distance was little over two hundred yards.

Their artillery was rapidly served, but aimed about two feet too high, cutting off trees at that distance above the heads of our boys. Some of their shells burst near our ranks, doing considerable damage.—Our advance, which alone entered the engagement, numbered hardly 2,000.

It is hoped that Gen. McClellan, or the forces at Rowlesburg, may cut off the retreat of the remainder, and secure the few baggage wagons left. The rebel army was composed mostly of Georgians and eastern Virginians. Col. Ramsay, of the Georgia regiment, succeeds Gen. Garnett in their command. The Georgians had all been moved to Laurel Hill, direct from Pensacola.

GRAFTON, July 15.

Coming through the field of battle of Cheat River yesterday, with Major Gordon, who had charge of the corpse of Gen. Robert S. Garnett, we learned that the rebel army had left the remainder of their baggage train and artillery at a point two miles from St. George. Word was instantly sent back to Gen. Morris, and all is probably now captured.

The rebels are greatly disorganized, and heading for Hardy county. It is hoped that General Hill, now at Oakland, may be able to intercept them.

IN A FIX.—The men in the 3d regiment were paid off Monday, one-third currency and the remainder gold. The boys were troubled because they could not get their $20 gold pieces broken, and felt as bad as though they had not been paid, since they could not spend it. Many of them did a noble act by sending their earnings home to sisters and mothers.—*Fond du Lac Reporter.*

THE NORTHERN FORTS TO BE PUT UPON A WAR FOOTING.—The Champion Citizen learns that Fort Montgomery, at Rouse's Point, Vt., is to be placed on a war footing at once, and that active preparations to that end are in progress. The government probably thinks it well, in view of the "precautionary" increase of British forces in Canada, to take precautionary measure for the protection of the frontier.

The disunionists of Kentucky say they are not for *secession*, but they are for *going with the south.* "Will you have me?" said John to Julia. "No," said she, "I will not have you—but you may have me!"—*Louisville Journal.*

BY TELEGRAPH.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

Last Night's Report.

WASHINGTON, July 16.

HOUSE.—Mr. Bingham, from committee on judiciary, introduced a bill for the suppression of the rebellion.

The President is authorized to call out the militia for this purpose, and their continuance in service is not to extend beyond sixty days after the commencement of the regular session of congress, unless the latter shall otherwise direct.

The militia are to be entitled to the same pay and rations as the regular service.

The bill passed under the operation of the previous question, almost unanimously.

Mr. Blair, from committee on military affairs, reported back the senate bill authorizing the president to accept the services of 500,000 volunteers to aid in the enforcement of the laws, etc., and proposed for it a substitute similar to the bill passed previously, and which allows the President to select major and brigadier generals from the line of the army, to command volunteers; these officers to assume their former places at the expiration of the year. The bill passed.

Mr. Stevens, from committee on ways and means, reported the senate's amendments to the loan bill, which, at their recommendation, were all concurred in.

Mr. Wright introduced a bill authorizing the secretary of the treasury to issue exchange bills to the amount of $500,000,000. Referred to the committee on ways and means.

Mr. Washburne, from committee on commerce, said they were ready to report on the resolution for clearing the sea of pirates and making the blockade more effective, and as there was immediate necessity for its passage, hoped the house would proceed to consider it.

JEFFERSON CITY, July 16.

The detachment from here returned from Tipton at 10 o'clock last night. They surrounded the town and captured eighteen rebels.

Citizens of Pettis county arrived this morning, who say that four hundred secessionists are assembled near Georgetown, with three pieces of artillery. Their numbers are constantly increasing.

CLEVELAND, July 16.

Fourth Wisconsin regiment arrived at 2 P. M. They leave for the east via Dunkirk at 6 P. M. All well. Had a fine reception and refreshments here.

NEW YORK, July 16.

Privateers of the Savannah will be arraigned to-morrow.

A Frenchman, charged with having served the rebels at the siege of Fort Sumter, is in custody.

WASHINGTON, July 16.

A naval militia is to be extemporized to sweep the ocean of privateers and for blockading.

FORT MONROE, July 15.

Russell left here for Washington. He says American camps are worse than those of the Crimea.

Special Despatch to the Chicago Times.

CAIRO, July 16.

You are already advised of the arrival of two hundred horses and mules at Bird's Point. The arrival of two hundred wagons is now expected daily. The exact use these are to be put to is not known. By many it is conjectured that their collection indicates a movement soon in the direction of the rebel camps at Point Pleasant and Pocahontas.

A boy arrived here yesterday from Stoddard county, who says there are about "ten acres" of men in the vicinity of "Negro Wool Swamp," and that among the number he saw hundreds of Indians. He seemed very honest, yet his story was deemed unworthy of attention.

Col. Pitcher, U. S. A., arrived here last evening. He comes for the purpose of swearing the troops into the three years' service.

ST. LOUIS, July 16.

A fourth regiment, under Lieut. Col. Helmer, crossed the Missouri River into Calloway county.

A party of secessionists fired from the bushes, killing the horse of an officer, and escaped.

The soldiers arrested all persons living in the neighborhood.

Six miles above St. Charles, the train carrying Col. Smith's St. Louis Zouaves was fired into.

Privates Sullivan and O'Connell were wounded—one dangerously.

The enemy escaped before the soldiers could attack them.

ST. LOUIS, July 16.

The report that ex-senator Green violated his parole is untrue.

J. W. Tucker, late editor of the State Journal, is making violent secession speeches in the country.

Col. Steifle's 5th regiment reserve corps, arrived from Lexington to-day, and report having captured two hundred kegs of powder, thirty-three muskets, one cannon, a quantity of machinery for boring and a mould for casting cannon, and several other contraband articles.

NEW YORK, July 16.

Gov. Hicks and Gen. Banks had a conference to-day.

A man, while hurrahing for Jeff. Davis, while quietly passing, was knocked senseless by a pistol in the hands of a policeman.

BALTIMORE, July 16.

Gov. Hicks was serenaded to-night. He expressed his unalterable devotion to the Union, and felt more than ever convinced that Maryland's only safety was in the Union.

HARRISBURG, July 16.

Col. Chas. J. Biddle, commanding the reserve force lately encamped at Cumberland, occupied New Creek Bridge on Sunday, by order of Gen. McClellan; Col. Kane, of the same brigade, occupied Piedmont; and Capt. Irwin took his post at New Creek Village.

The enemy precipitately retreated on the approach of the forces. Capt. Taylor pursued and captured a wagon filled with plunder.

On Monday morning the enemy attacked Capt. Irwin's position, but were vigorously repulsed, leaving two dead, and carrying away some wounded.

LOUISVILLE, July 16.

A disturbance was threatened at the Louisville and Nashville Ralroad depot last night in consequence of the seizure of a trunk full of Hardee's Tactics. It was quelled by the presence of armed men, who volunteered to assist in carrying out the orders of Surveyor Cotton.

Captain Trabue shot Capt. C. L. Thomasson, at Camp Jo. Holt, on the Indiana side of the Ohio River, this P. M. The wound was slight. They were both Captains of companies in General Rosseau's Kentucky Brigade, and the difficulty arose from some of Trabue's men going into Thomasson's camp. Trabue was arrested and taken to the Indiana Penitentiary at Jeffersonville.

The Portsmouth (Va.) correspondence of the Richmond Examiner says: "The first rifled cannon was turned out at the navy-yard yesterday, and in a few days they will be able to supply long-range cannon to the Confederacy as fast as wanted."

The Galveston Civilian says that the blockade of that port was rendered complete on the 2d of July by the arrival of the United States steamer South Carolina, Capt. Alden. She had captured the sloops Dart, Shark, Falcon, and two others.

LOUISVILLE, July 16.

A special to the New Orleans Picayune from Fairfax says that, by mistake, on the 4th of July, South Carolina and Virginia detachments had an encounter, killing two and wounding one Virginian.

The Augusta (Ga.) Constitutionalists of the 9th, noticing the visit from ex-Governor Morehead, says that Morehead states that an overwhelming majority of the people of Kentucky are at heart in favor of uniting their destinies with the confederate states, but that the loyal influences wielded by the enemy, and the efficiency of their arms, place Kentucky under temporary restraint.

The Louisville volunteers for the confederate army, who had left for Camp Boone, near the northern line of Tennessee, are returning daily in considerable numbers, dissatisfied with the work assigned them, and disgusted with their fare. A large portion of them say that they do not want to hear anything more about Jeff. Davis and the southern confederacy.

JEFFERSON CITY, July 16.

The mail carrier reports that Maj. Harris, with a force of over 3,000 men, was at Wood Springs, twelve miles beyond Fulton, on the Mexico road, at 11 o'clock this morning.

Col. McNeil arrived at New Bloomfield at noon, and expected to reach Fulton to-night.

The houses along the road were deserted in consequence of groundless fears on the part of the people.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DESPATCHES.

BUFFALO, July 17.

The 4th Wisconsin Regiment unexpectedly arrived here this morning. They were received by Buffalo Tigers and breakfasted. They leave by the Erie road this forenoon.

WASHINGTON, July 16.

Times' despatch.—The army in Virginia to-day took up the line of march for Richmond, via Fairfax and Manassas. The force starting to day is fully 50,000 strong; the number reaching by actual count about 53,000.

Col. Burnside's Brigade went over Long Bridge at 4 o'clock this afternoon and struck the road for Fairfax Court House. The 27th New York, Col. Slocum, went over at 5 o'clock and also took the Fairfax route.

Herald's despatch.—The discovery of a pass to enter the Rappahannock river on the person of a man recently found at Richmond, and the effort of the rebels to create a difficulty in consequence between the British minister and our government, has, on investigation, turned out to be a very shrewd rebel trick, to involve our government in a quarrel with England.

Tribune's Dispatch.—The columns this P. M. probably moved only to advanced pickets.

To-morrow morning at early dawn they will pass forward upon the enemy.

The first fighting will probably take place at Fairfax Court House, where there are 9 rebel regiments.

It is believed that the design of our generals is to avoid Mannasses Junction, and if possible, circumvent it.

A positive intention is, however, no delays, but to push vigorously south, and fight their way to Richmond.

It is also supposed that a movement to this important point will not be direct, but by flank, and that our columns will pass around the city and approach it from the south, after cutting off all communications.

The report that the Hon. Jos. Holt of Kentucky, will be appointed Justice of Supreme Court is without foundation. There will probably be no new appointments until the court has been organized.

Information received here to-day states that the rebel forces at Occaquin, Dumfries and one or two other points on the Potomoc, have been removed to Manassas Junction.

Reports from Arizonia and New Mexico report the secession feeling in those territories very strong, the inhabitants being mainly settlers from Texas. It will be necessary to send U. S. troops to Fort Bliss to suppress them.

From intelligence received here last night by mail from Vera Croz, it is stated and believed that J. T. Pickett, late consul of United States to Vera Cruz, was recently in this city—having gone up to the Mexican capital as diplomatic agent of the rebels, with the hope of circumventing Minister Corwin in his negotiations.

WASHINGTON, July 16.

The army has advices that Gen. McDowell left at 3:30 p. m. to go *somewhere.*

The first brigade of the 5th division is commanded by Brig. Gen. Lewis.

This forward movement had a wonderful effect upon the sick list. It has nearly cleared out the hospitals.

World's Correspondence.—All militia of eastern Virginia are ordered to march for Staunton.

The Times says Mr. Schenck, of Indiana 11th congressional district, has been appointed aid on Gen. Fremont's staff and accepted the appointment.

AFTERNOON DESPATCHES.

WASHINGTON, July 17.

HOUSE.—Mr. Henry May appeared and was qualified by taking the oath to support the constitution.

Mr. Holman introduced a resolution authorising the select committee heretofore appointed, to examine into war department contracts to be made, and that committee have meetings during recess.

WASHINGTON, July 17.

Special to Commercial.—A message to the war department says Fairfax Court House was occupied at sunrise. The rebels having previously abandoned the place.

CINCINNATI, July 17.

On Friday night a detachment of 3 companies of Col. Woodruff's 2d Kentucky regiment attacked 600 rebels between Mad River and Barbourville, on the Kanawha river, completely routing them. Ten or twelve rebels killed and a number wounded. The Kentuckians had 2 killed.

Gen. Cox's brigade was rapidly moving up the Kanawha.

ST. LOUIS, July 17.

Mr. Hayard, superintendent of Hannibal & St. Joseph railroad, just from Hannibal, received the following dispatch previous to leaving that place:—

HUDSON, July 16.

Eight hundred federal troops came up ahead of the passenger train this a. m. as far as Milleville, 30 miles above St. Charles, on the north Missouri railroad, where the tracks were torn up, and troops fired into. Engagement resulted in 7 rebels killed, and several taken prisoners.

One man caught with a gun in his hands was immediately hung; another in attempting to escape was riddled with balls.

Fighting still continued when the passenger train passed up.

Federals lost 3 killed and 7 wounded.—Thirty horses captured: Strength of rebels unknown.

FORTRESS MONROE, July 16.

The 3rd and 4th Massachusetts regiments, whose three months' time is up, leave for Boston at once.

Brigadier General Pierce will return home.

Several companies went out from New-port News last night to suppress, if possible, a body of light horse, who have for some time hovered in the vicinity. They had not returned at the departure of the morning boat from Newport News.

PHILADELPHIA, July 17.

A gentleman of this city, who left Richmond on the 9th inst., and escaped via Tennessee, arrived here this morning. He says when he left there were about 10,000 troops in Richmond and several fortified camps commanding the approaches, with heavy batteries—one on Acquia Creek road of heavy guns. There were three regiments at Hoffing Grove out of the city, and two regiments of flying artillery near Rocket. Regiment after regiment arriving via Nashville. Five regiments with a small baggage train left Richmonn on the 8th to reinforce Gen. Johnston. He estimates that there are not less than 60,000 men under Gen. Beauregard at and around Manassas Junction, and reinforcements of militia are being forwarded daily. It is reported, but discredited, that there were 10,000 at Acquia Creek.

Andersons & Tredegar have turned out several cannon, also a large number of gun carriages, shot and shell per week.

Sloat's former sewing machine factory has been turned into an armory, and was engaged in manufacturing guns, cavalry and artillery equipage, etc. There was a great scarcity of leather and oil cloth, but some establishment had recently received a supply of leather from Kentucky.

Three barrels of oil had just been received at Richmond bearing mark of Philadelphia.

A man named DeBow has been erecting a percussion cap machine which turns out 300,000 caps daily. He is also engaged in building three more. He experiences difficulty in obtaining detonating powder. A man from New Orleans was engaged making it.

DeBow is also constructing telegragh instruments, and recently constructed an infernal machine. He has gone to Norfolk to give it a test.

Steamer Yorktown has been mounted with eight 64-pounders at Richmond. The estimated number of men at Yorktown was 15,000 and from 10,000 to 20,000 at Norfolk.

Troops from Pensacola at Richmond generally concur in the impossibility of taking Pickens. It is said they were induced to come north from representations that Fort Monroe would fall an easy prey.

Provisions are at present plenty in Richmond.

WASHINGTON, July 17.

The Republican this morning says that the general movement was in the direction of Fairfax Court House, which is no great distance from the left of Gen. McDowell's, though it is near 14 miles from the extreme right. The army will halt for night this side of Fairfax Court House.

The enemy will probably take occasion to evacuate to-night and resume their march in the morning.

The Intelligencer says an officer just arrived here last night direct from Martinsburg yesterday morning. He says General Johnson broke up his camp at Bunker Hill on Monday, and commenced retreat of his whole army towards Winchester.

Gen. Patterson, with his entire force immediately went in pursuit, and was about 11 miles in the rear of Johnson.

Correspondence of the Cincinnati Commercial.

CAMP BUCKHANNON, July 6.

A CONTRABAND COOK WHO DID'NT KNOW HIS MASTER.—The boys are fond of chickens—not particular whether they are spring chickens, or even chickens, so they come under the general denomination "poultry." Without license they entered sundry barnyards, and the camps are now sprinkled with feathers enough to stuff the bedticks of a large and respectable family. One farmer complained that a pair of sheep had mysteriously disappeared from his fold.—The fleece was traced to the camp of a Buckeye regiment, and it is presumed the flesh went the way of of the fowls. A stout male "contraband" suddenly disappeared from his master in an inexplicable sort of a way. He was afterwards discovered harmlessly pursuing the vocation of cook in the camp of the 19th Ohio. Sambo was suddenly confronted with his master, in the presence of Gen. McClellan. Quoth our legal military Lt. Col. Key, "What's your name, boy?" "Pompey Johnson, sah?" reglied Sambo. "Where are you from?" continued the Colonel. "Johnstown, Cumberland county, state of Ohio," said the nigger with sublime audacity. "Do you know that man?" asked the Colonel, designating Sambo's master. The darkey eyed his master coolly from head to foot, as if he was preparing to swear to his inches, and without winking responded—"No sah! dun 'no' him. Nebber seed him 'fore. Stranga to me, sah?" "Why, you rascal," interposed his master, "I raised you—bought you when you were nine years old; every body in town knows you're my nigger."—"Dun 'no' you, sah! Stranga to me, sah! I'se free cullud pusson, sah! Cum from 'hio, sah, wid de soldiers." The neighbors identified Pompey as the claimant's chattel, and he was remanded to servitude, when he suddenly regained his consciousness and retired obediently. He had been captured from his master, a secessionist, by some of the lads of the 19th who desired him for a cook, and had instructed him to play the part he assumed. The darkey, however, mistook the name of the county he was to hail from, substituting Cumberland for Trumbull.

AN OLD SOLDIER KILLED ON THE CARS.—On Saturday afternoon as the wood train on the Milwaukee & Prairie du Chien R. R. was coming from Milton, a man got aboard without leave of the conductor, and took a seat on the platform car, the most of the cars being loaded with old iron rails. When about four miles west of Waukesha a stake came out, letting the fore end of a T rail down on to the ties, striking with such force as to send it through the end boards put up at the rear end of the car, hitting this man on the back part of his head and killing him instantly. He was knocked off the cars and the rear car passed over him, crushing both legs. The body was taken to Waukesha where it was examined by the authorities. He was buried at Waukesha on Sunday morning. He was a man about forty years old, tall and slim built, about six feet in height, and would weigh about 160 pounds, light sandy hair, with whiskers clear around the chin, no mustaches. He told the boys on the train that he had been in the regular army, among the Indians in the west for the last twenty years, and had got dismissed on account of having the rheumatism, and was now on his way to Buffalo.—*News this morning.*

Peter Van Buskirk, of Washington, is 99 years old. He was on the revolutionary pension list as a private. As such he has received $5 a month. But he claimed to have been assistant-forage master, and he recently found the evidence to establish his claim. He is therefore awarded arrearages to the amount of $16,200.—*Albany Evening Journal.*

WOUNDED.—In the list of wounded at Williamsport, is the name of William A. Mathews, formerly of Oconto, but now of the First Wisconsin Regiment. It will be remembered that he wrote the article from the camp which was published in the Pioneer two weeks ago. The account does not say that he was dangerously wounded, and we hope to hear of him being up and on duty before a great while. He's a brave soldier.—*Oconto Pioneer.*

Important to Farmers!

WOODRUFF'S
Patent Portable
BAROMETER.
Cheapness, Accuracy, Simplicity, Durability, Portability and Beauty of Finish Combined.
INVENTED BY
L. WOODRUFF,
for many years Practical Meteorologist of the
SMITHSONIAN INSTITUTE.

It Tells you when to expect Rain!
It Tells you when to expect Fair Weather!
It Tells you when to expect Wind!

It tells you your height above the level of the sea, or as compared with your neighbors!
Its use will add five per cent to the value of your crops by enabling you to secure them uninjured by storms!
In England and on the Continent, where art and science, as applied in aid of labor, are in some branches at least far ahead of our own country, the Barometer is to be found in the hands of almost every husbandman. Its convenience and utility are just as well recognized as that of the clock.
Experience shows that wherever the Barometer has has been introduced in this country, it is equally satisfactory. In fact it is a necessity in our proverbially variable climate, for in Wisconsin alone millions of bushels of grain have been lost through the lack of some reliable means of foretelling the weather. Depending as it does upon the well known natural law that no atmospheric change can occur without destroying its equilibrium, thus producing a change in its density and weight, which, by its action upon the sensitive surface of the mercury, is infallibly indicated by the rise or fall of the column, it will at once be seen that when properly constructed, the slightest change in the weather will be preceded by a change in the Barometer.
While to the farmer it is indispensable, oftentimes saving many times its cost in a single day, to the painter, builder, master carpenter, brick-moulder, and all other out-door workmen and mechanics, it is of scarcely less importance; and in short, there is no class in community to whom it would not sooner or later save many times its expense. Schools should not consider their apparatus complete without it.
We claim for this instrument the following merits in preference to all other instruments of the kind:
1st. Its cheapness. Until recently the Barometer has been so difficult of construction and so costly as to place it beyond the reach of all but the wealthy; but this instrument is sold so low as to be within the means of all, being by far the cheapest reliable Barometer extant.
2d. Its portability. A great difficulty in obtaining these instruments heretofore has been that they could not be transported, its extreme delicacy of construction rendering it necessary to be made and adjusted in the place where used; but by a simple arrangement this instrument can be rendered in a moment perfectly portable, so that it can be subject to the roughest usage without injury.
3d. Its durability. No wood or leather is used about the cistern, which is wholly of cast iron, forming the most durable instrument of the kind possible.
4th. It is a Mercurial Cistern Barometer, which is the only form endorsed by the highest scientific authority. The ordinary cheap Barometers and all Aneroid or dial-faced Barometers have been condemned as unreliable by the U. S. Coast Survey, and Smithsonian Institute, Washington.
5th. Its simplicity. While it combines with all the real improvements that have been given to the instrument for two centuries, other and valuable improvements possessed by no other, it is the simplest possible form of Barometer.
6th. It is not affected by the change of temperature as are the Union and other Barometers, (thus rendering it necessary to adjust them every time an observation is taken, and then it is only an approximate one,) but is acted upon solely by the different degrees of density of weight of the air, as affected by various atmospheric phenomena.
7th. Its thorough workmanship and beautiful finish render it at once highly ornamental, accurate and durable, while the addition of a Thermometer Index, and Vernier scale upon a brass plate, render it by far the most complete instrument of the kind ever offered to the public.
Premiums have been awarded it by the New York, Michigan and U. S. Agricultural Societies, over all competitors.

Prof. J. C. Holmes, State Agricultural College, Lansing, Mich., says:—"The Barometer you made for me has proved to be an excellent instrument. It is perfectly accurate. I would recommend a trial of one to every farmer."

Says Hon. H. Greeley:—"There is no article so much needed among farmers as a good Barometer. You ought to sell ten thousand of them this present season in the state of New York alone. The fact that times are hard and money scarce, is only additional reason why farmers should purchase them as an article of economy in saving their crops from damage and waste."

The following scientific gentlemen, with many others, have permitted the use of their names as references:
GEO. P. WILLIAMS, LL. D., Prof. Natural Philosophy and Mathematics, University of Michigan; S. H. DOUGLASS, A. M., M. D., Prof. of Chemistry, University of Michigan; E. S. CARR, M. D., Prof. of Natural Science, Wisconsin State University.

Dentistry.
M. B. Johnson still continues the practice of Dentistry at his now location, West Milwaukee street, over Moseley & Bro's Bookstore, Janesville, Wis. He is now manufacturing artificial Dentures on *Vulcanized Rubber Base.* This substance has been thoroughly tested, and found to be superior to many others. It is very strong and light, and is worn with greater ease and comfort than most anything else, and can be afforded at a price which places it within the reach of all. Call and see it. He also continues to make the *Continuous Gum Work,* which is superior to all others; together with all other styles of work now in use.

GALENA AND CHICAGO UNION RAILROAD.—The night train on this road has been withdrawn, and the day train changed to leaving at 9:10 A. M., and arriving at 4:30 P. M.

THE EXCURSION.—The St. Paul excursionists came in this forenoon on the Chicago and Northwestern Railway, filling five passenger cars, and having two baggage cars assigned to their use. At Milton they were "switched" to the Milwaukee and Prairie du Chien road, and will reach the Mississippi this evening.

A car devoted to the Janesville excursionists, numbering between 20 and 30, preceded the train to Milton, and was there attached to the train.

The excursion will undoubtedly be a very pleasant one, and the excursionists will return highly satisfied with the trip.

CUSTOM FLOURING.—By reference to our advertising columns, it will be seen that the Messrs. Clark have rented the custom mill known as the Bower City Mill, and are prepared to do gristing on short notice and in the best manner.

They are practical and good millers, understanding their business, and will give their best efforts to satisfy their customers.

☞ The board of supervisors of Dane county has made liberal provisions for the families of volunteers.

MORE EMIGRANTS.—The Chicago Tribune of Monday says—"Yesterday seven hundred Norwegians arrived here via the Michigan Central railroad from Quebec, bound for Minnesota, Wisconsin and Iowa. They left by the Galena & Chicago Union railroad. This is the second similar party within a week, one having passed through this city last Friday. There is another expected to arrive here to-day."

☞ The board of supervisors of Kenosha county has levied a tax of $1,000 on that county, for the benefit of the families of volunteers to the war.

A COMPLIMENT TO A JANESVILLE CLERGYMAN.—The Rev. Mr. Goodspeed, of this city, has been selected to deliver the oration before the alumni of the Rochester (N. Y.) University in 1861. Mr. G. is a graduate of that institution.

SUPREME COURT—July 16.—State ex rel. Attorney General vs. Isaac E. Messmore.—Justice Paine. Motion to quash information and writ denied.

First Circuit.—Nos. 5, 6 and 7 argued.

ACCIDENT.—This morning, while raising some joists to the 4th story of Jackman & Smith's new building, a workman named Wm. Albrick was severely injured. He had passed a noose around the end of the joists, but had not sufficiently tightened it, and it slipped while raising the joists. One of them struck him on the shoulder breaking the blade; he also suffered several other external injuries, and was injured internally, though to what extent from the latter cannot now be told.

CAMP MATTERS.—Last Saturday evening about eighteen hundred of the soldiers in Camp Randall bathed in Fourth Lake.

Friday evening a prayer meeting in the open air was held, which was attended by about five hundred soldiers, and some dozen or two ladies from town.

A lodge of good templars has been established, and three hundred united with it.

The members of the bar of Dane county and the citizens of Madison generally, have raised a subscription and purchased a fine stallion for Lieut. Col. Atwood. The price paid for it was $300.

The health of the regiments was excellent—only one man being dangerously ill. He belongs to the Anderson Guard, sixth regiment, and is down with congestion of the lungs.

The Chicago Tribune says, that for a single place in the Chicago postoffice, the vacancy of which was made more than usually public, there were within the week succeeding, nearly *five hundred* applicants, and this well indicates the pressure for places in that office.

The Richmond papers make great boast that the name of the rebel who killed Capt. Ward, on board of the Freeborn, at Mathas Point, was James Stuesbly, of Stafford, Va. He was armed with a Sharp's rifle, and was a little nearer to the Freeborn than the main body of the soldiers. He took deliberate aim and accomplished his murderous design.

ADJUTANT OF THE 5TH REGIMENT.—The Madison Journal says: T. S. West, lieutenant of company K, of the 5th regiment, has received the appointment of adjutant of said regiment. This is a good selection. Mr. West is a well-drilled officer—is attentive to his duties, and executes them with promptness and fidelity. We congratulate, both the regiment and Mr. West upon this promotion. The regiment has secured a good officer and Mr. West a good position.

NEW MUSIC.—"Mother, oh Sing of Heaven," is the title of a new piece of music just issued by Root & Cady, of Chicago. It is pronounced good by competent judges.

RECRUITING FOR THE NAVY.—Lieut. Stevens, U. S. N., a short time since opened a naval recruiting station in Chicago.

The experiment was highly successful, and the station will probably be continued.

It is confirmed that Mr. Charles Dickens, the great novelist, and his wife, have reconciled the unhappy differences that had caused their separation, and are again living together.

ALL SORTS OF PARAGRAPHS.

The last news from Europe represents the condition of the Pope as critical. Indeed, it is stated that the question of his successor is already freely canvassed in the College of Cardinals. An abscess in the leg has affected his entire system; and his medical advisers give but little encouragement that he will recover.

The first order issued by Speaker Grow, upon taking possession of the splendid room assigned to him, was that the doorkeeper should remove the marble bust of the traitor, Ex-Speaker Orr, from the bracket where it was placed by the consent of Orr, and that the fine marble bust of John Quincy Adams, that formerly occupied a niche in the old Representative' Hall, be substituted. The order was executed to-day. The original subscribers to Orr's bust can undoubtedly have the same by calling for it, the present owners having no use for it.

GEN. HARNEY.—This gentleman has been in St. Louis the past two months. The St. Louis News says there is a strong probability of his being shortly assigned to an important command in active service.

The entire force now under Gen. McClellan's command in Western Virginia, amounts to about thirty-four thousand men, consisting of nineteen Ohio regiments, nine Indiana regiments, three Virginia regiments, two Kentucky regiments, the Chicago Sturges Rifle Corps (being Gen. McClellan's body guard,) Capt. Barker's and Capt. Seeaumbeck's Chicago Dragoons, and the Cincinnati Rover Dragoons, two companies of regular artillery, the Coldwater (Mich.) artillery, and one company of flying artillery, besides one other troop of horse.

The residents of Nantucket (Mass.) were much surprised on Saturday last, by the appearance of what seemed a light snow storm, but which proved to be the falling of a dry, whitish substance, resembling down. It continued several hours, and so resembled a snow storm that the children reported to the teachers that it was snowing.

The earthquake mentioned in our dispatches from Canada on Friday, was distinctly felt in the vicinity of Rochester, N. Y., and also at Syracuse.

Hon. John A. Gurley, member of congress from Cincinnati, will take the field as aid-de camp to Gen. Fremont, at the close of the present session of congress.

The delivery of a slave to his master by Col. Cowdin of the first Massachusetts regiment at Washington, has created considerable excitement among the troops. It is alleged that the master had no papers by which he could legally claim him.

A cold rain storm prevailed in western New York on the 2d of July, from the effects of which a large number of sheep which had recently been sheared, died.—Some farmers lost ten per cent. of their flocks.

The town of Linsayville, in Canada West, had a terrible visitation by fire on the 5th inst. The heart of the town was destroyed. The losses amount to about $100,000, and its wealthiest men are ruined.

There is difficulty in keeping the Erie canal supplied with water. East of Rochester and west of Albion, there are many boats which are unable to move.

The "hard times," which is pressing hard on most all the eastern papers just now, has forced the Boston Atlas out of existence.

Capt. Bondebamer, of Indiana, is organizing a company of printers in Indiana for the war.

One of the New York regiments contains thirty school-masters. It ought to be able to "lick" the southern boys.

Mr. Lawrence Geoghegan, of Galway, gun-maker, has produced a new blasting powder made from tanner's waste bark, nitrate of soda and sulphur, which is said to be much superior in efficiency to the blasting powder in general use, while it costs not more than half as much.

NO BUSINESS.—The marine lists of Charleston, Savannah, Mobile and New Orleans all now present the same appearance. The various journals in those cities keep the following lines standing under their marine heads. "No clearances yesterday." "No arrivals yesterday."

TERRIBLE, IF TRUE.—F. O. Thorp, of Washington Co., informs us, says the West Bend Post, that he has just received a letter from his father, who resides in Kenosha county, stating that he has received a letter written by one of a company which left there last spring, for California, and in which he states that the whole company, with the exception of himself, were murdered by the Indians, when only a few miles beyond Salt Lake City. It appears towards the close of the day on which this terrible massacre was committed, the surviving member alone was sent on ahead of the main body, for the purpose of securing suitable camping grounds, and that upon his return he found the whole party weltering in their blood, and their teams and provisions missing. Mr. Nathan McCommins, a son in law of Mr. Thorp, with his wife, were among those killed. They had been married but a few short weeks previous to their departure for the land of gold, and should this report prove correct (which God forbid,) it will be a terrible blow to their afflicted friends.

Parson Brownlow denies emphatically, in his paper of the 6th, that the secessionists are gaining ground in East Tennessee. He says:

We notify them that the ballot-box, on the first Thursday in August, will again convict them of lying. If they have the recruits they boast of, let them elect members of congress, and to the legislature, from East Tennessee. We give them notice that the Union men intend to elect, and that they will do it fairly, by majorities, and through the ballot-box.

A Washington dispatch, on Saturday, to the New York Commercial Advertiser, says:

Col. Lamon has resigned the marshalship of the District of Columbia, and has gone to Virginia to take command of the regiment that he has raised there in aid of the cause of the Union. Names are already mentioned for the succession to the marshalship, but they are, I imagine, merely conjectural, and therefore I do not repeat them.

DRYING THE COMMON RED CURRANT.—We copy the following method from the last number of the Horticulturist. Many of our readers will find it just in time to give it a fair trial. The editor of the Horticulturist having examined the currant prepared in this way, highly commends it:

The currants should be quite ripe when gathered, with the stems attached, and washed or rinsed effectually and drained off. Then stem them and wash them thoroughly, and to each pound of currants add a quarter of a pound of good Havana sugar; then place them in a preserving kettle over a fire until they come to a *scald heat*, when they are turned out into white earthern dishes, and exposed to the action of the sun until, by evaporation, they become hardened on the upper side. Then they are turned over, and there remain until they become so on the other side, and so alternate until they become a sort of leathery texture, when they are put away in earthen jars or boxes until wanted for use. Care must be taken to keep them from the dews of night and rains during the process of drying; finally, the utmost cleanliness should be observed from first to last.

When used enough hot water is required to disolve them or render them to any consistency suitable for tarts, jelly, &c. At the same time, more sugar is required to make them quite palatable, which must of course be governed by taste. Currants in this way have kept well with us for three years, and the presumption is, that they will keep for a longer time if well cared for.

MRS. GEO. H. HITE.

A SPY OUTWITTED.—The circumstances connected with the arrest of R. H. Alvery, a Maryland secessionist, and another spy with whom he was in communication, are curious and interesting:

"One night last week the picket guard stopped a man on the road to Hagerstown, who answered the guard's inquiries by saying that he wished to see Gen. Patterson, but when about to be introduced at headquarters, wished to evade the interview.—He was instantly seized and searched, and dispatches were found upon him from the rebel General Johnston to Mr. Alvery. McMullen, one of Gen. Patterson's aids, forthwith stripped the rebel spy, dressed one of his own men in the rebel's clothes, gave him Johnston's letter, and started him off to see Mr. Alvery. The dispatches, however, had been nicely opened, copies taken, and then resealed. McMullen's man was received by Alvery, who thus fell into the trap most beautifully. Alvery unfolded all his plans, and gave him written answers to Johnston's dispatches. The supposed friend conveyed conveyed Alvery's documents to General Patterson. The arrest took place quietly the next day. When Alvery was confronted with the documents and the indisputable evidence of his treachery, it is said he was completely unmanned, and sunk under the burden of his guilt."

PURSUIT OF THE PRIVATEER JEFF. DAVIS.—Immediately upon the receipt of the news relative to the seizure of vessels by the privateer Jeff Davis, the government at Washington ordered a fleet of revenue cutters and gunboats to be despatched from this port in quest of the daring privateer. The command of the fleet was confided to Capt. Howard, and the cutters Jackson, Crawford and Varina went promptly to sea, in tow of the steamboat Mercury. The Henrietta, Lieut. J. G. Bennett, Jr., now lying off the battery, will start in pursuit of the pirate to-day, provided her guns arrive in time. The gunboat Iroquois, one of the fastest in the navy, will also start on the same errand to-day, so we shall have five armed vessels in pursuit of the Jeff Davis before many hours. The prospect of encountering and capturing the piratical craft is very encouraging. The Jeff Davis was formerly the sluver Echo.—*N. Y. Herald, 13th.*

A REGIMENT OF WARRIORS.—We learn that E. S. Ingalls, and John Kitson, Esqs., have written to the secretary of war, tendering to the government the services of a regiment of Chippewa Indians, to consist of not less than five hundred, and not exceeding one thousand. They offer to the government, if the regiment is accepted, to have them in the field, armed and equipped, with no expense to the government, except transportation and food, in six weeks from the time orders are received.

Judge Ingalls has also written to the secretary, in case the above offer is not accepted, inquiring if a company of "pinery boys" as riflemen would be received—the company to be raised on the Menomonee. If the first offer is accepted, we think that an excellent regiment could be placed in the field; and if the last, there would be nothing in the service much superior to the Menomonee river boys.—*Oconto Pioneer.*

Mr. Bonner, of the Ledger, presented Mr. Everett, on the 4th of July, with a check for $1,000, to be given to the families of the Massachusetts volunteers. Mr. Everett wished to divde the proceds of his oration in this city between New York and Massachusetts, but Mr. Bonner persuaded him to give all to the families of volunteers here, and in return for which he presented Mr. Everett with the sum just mentioned.—*World.*

To the Land Owners of Janesville.

Being about to leave for my post at Galway, Ireland, if those citizens having cheap lands for sale in this state, will furnish me with particulars, of the lowest price, terms of payment, quantity, quality, location, &c., I will most probably be enabled to find Irish purchasers, to whom my extensive knowledge of this country and my having written so copiously on it, enables me to give valuable information, and thus promote the best interests of all parties concerned. As for salubrity of climate and adaptation for agriculture, I think Wisconsin superior to any other western state, and my numerous friends here may rest assured that their beautiful "Flower City of the West, with its many educational and business facilities shall not be overlooked or forgotten. COMMERCIAL.

Janesville Wholesale Market.

Reported for the Janesville Gazette, BY BUMP & GRAY, GRAIN AND PRODUCE DEALERS.

JANESVILLE, JULY 17, 1861.

The wheat market was considerably firmer to-day, which is owing to the recent favorable advices from foreign markets. Millers seem anxious for choice samples at 62@63c, and shippers took common to fair quality at 59@60c. About 1000 bushels changed hands at the above figures. Receipts of coarse grains continue very light, not enough coming forward to supply home demand. We quote corn firm at 16@18c per 60 lbs shelled and 15@16c per 72 lbs ear, and oats at 14@15c per bushel. No change in other produce.

We make up prices as follows.

WHEAT—good to choice milling spring 62a63, currency; fair to good dry shipping 59a60; rejected 30a40. The above figures are for currency, a deduction of 5 and 8c per bushel is made payable in gold.

CORN—16a18 per 60 lbs. shelled, and 14a16c per 72 lbs., ear.

OATS—good local and shipping demand at 14a15.

RYE—quiet at 20a25c per 60 lbs.

BARLEY—dull sale at 15a25c per 50 lbs., common to good quality.

TIMOTHY SEED—dull at 1,40a1,75 per 46 lbs.

POTATOES—plenty and very dull at 10a15c. per

BUTTER—plenty at 10a12½c fair to choice roll.

EGGS—plenty and dull at 6c per dozen.

WOOL—ranges at 15a27c for common to choice fair clean clips.

HIDES—Green, 2½a3; Dry, 6a7.

FLOUR—spring at retail 2,25, per 100 lbs.

POULTRY—dressed turkeys, 6½a7; chickens, 5a6

SHEEP PELTS—range from 50c@90 each.

GREAT ARRIVAL

OF

MERCHANDIZE

AT

McKEY & BRO'S.

THIS is the third arrival of goods received this Spring and Summer by our house. The business we have done since the 1st day of March

HAS DOUBLED

that of former years, for the same period; allowing to the fact that we purchase our goods for nett cash. The stock now coming to hand was purchased at the

Greatest Sacrifice,

less than half the cost of importation, by E. McKey, who has been east for the past two months. We have also a resident buyer in New York city, exclusively for the purpose of picking up the

GREATEST BARGAINS

in merchandize.

The immense rush to our house recently, is sufficient evidence in itself that we labor for the

Benefit of the People.

We still continue to deal out to the community those great and incomparable bargains; for instance, we have in stock and shall continue to sell as usual, notwithstanding the great advance on Cotton Goods,

50,000 Yards of the Best Prints

in the United States, consisting of

MERRIMACK, COCHECO, PHILLIP ALLEN'S, SPRAGUES

and every other good brand in the market, at 10 cents per yard, worth 1 shilling to-day in New York, Chicago or Milwaukee. Also,

20,000 Yds Full Madder Prints

at 8 cents, or 12½ yards for one dollar.

Received this day 50 Bales of

Sheetings, Ticks, Shirtings, Denims, &c., &c.

Anticipating an advance in Cotton Goods, we were induced to invest very largely in the article, enabling us to se l at our usual prices.

300 PIECES BEREGES

of all colors for dresses, to which we call attention. We will sell 12 yards of Berege for 75 cents; just the article for the season, only think, 6¼ cents per yard for Bereges.

175 Pieces Finest Berege DeLaine

in the market, at 20 cents per yard—all new styles—got up for this month expressly. The usual quantity of 1 shilling goods on hand. Please read the annexed attentively. We have this day received 4 cases of French and English

Mulls and Organdies,

cost of importation 56 cents, intended for the southern trade exclusively, and now offered by our house at 25 cents per yard. The patterns are original, and the first time ever offered in this city. About

10,000 Yards of Lawns

on hand. We offer 10 yards of fast colored Lawn for $1.

OUR STOCK OF

Dress Silks

is much larger than we have ever had at this season of the year. We offer this day a splendid heavy silk at

FIFTY CENTS, WORTH ONE DOLLAR.

We are now opening a large lot of

FRENCH PRINTS

full yard wide, at 2 shillings per yard, never sold by us less than 3 shillings.

We have now open and ready for inspection between 3000 and 5000

SHAWLS AND CLOAKS,

consisting of Burnous, Shawlettes, Arabs and other styles at a great reduction from former prices.

Our stock of

TRAVELING DRESS GOODS

is now complete, consisting of the following: Robes De Montijo, Erminettes, Paris Poplins, Lustres, Mozambique, Mottled Modena, Milanos, Tollo De Naples, Stella and Lucina Scraphines, French Organdies, Lawns, Figured Brilliants, French Calico, English and French Bereges and many other styles not mentioned.

All of the above have been purchased within the past week.

In Carpets, Oil Cloths and House Furnishing GOODS

we have a full and complete assortment.

It is now conceded that McKey & Bro.'s Clothing House is the place to get

Clothing, Hats, Caps, &c., &c.

Our retail stock this day is larger than many Jobbing Houses in New York city.

AN IMMENSE STOCK OF

Boots and Shoes

on hand as usual, cheap.

Our Wholesale Trade has been large, much beyond our expectations, so much so, that we intend adding a large space for that department alone, to meet the wants of the coming

Fall Trade.

We purchase for cash and can afford to undersell Western Houses who buy on credit and sell on the same terms, our business being done exclusively for cash.

In conclusion we would say that we never had a more

Complete or Well Selected Stock of Goods

since our commencement in business in this city, and were never more desirous of

REDUCING IT,

thereby offering to the public the

GREATEST BARGAINS

in the annals of merchandize.

GALENA AND CHICAGO UNION RAILROAD.—The night train on this road has been withdrawn, and the day train changed to leaving at 9:10 A. M., and arriving at 4:30 P. M.

THE EXCURSION.—The St. Paul excursionists came in this forenoon on the Chicago and Northwestern Railway, filling five passenger cars, and having two baggage cars assigned to their use. At Milton they were "switched" to the Milwaukee and Prairie du Chien road, and will reach the Mississippi this evening.

A car devoted to the Janesville excursionists, numbering between 20 and 30, preceded the train to Milton, and was there attached to the train.

The excursion will undoubtedly be a very pleasant one, and the excursionists will return highly satisfied with the trip.

CUSTOM FLOURING.—By reference to our advertising columns, it will be seen that the Messrs. Clark have rented the custom mill known as the Bower City Mill, and are prepared to do gristing on short notice and in the best manner.

They are practical and good millers, understanding their business, and will give their best efforts to satisfy their customers.

☞ The board of supervisors of Dane county has made liberal provisions for the families of volunteers.

MORE EMIGRANTS.—The Chicago Tribune of Monday says—"Yesterday seven hundred Norwegians arrived here via the Michigan Central railroad from Quebec, bound for Minnesota, Wisconsin and Iowa. They left by the Galena & Chicago Union railroad. This is the second similar party within a week, one having passed through this city last Friday. There is another expected to arrive here to-day."

☞ The board of supervisors of Kenosha county has levied a tax of $1,000 on that county, for the benefit of the families of volunteers to the war.

A COMPLIMENT TO A JANESVILLE CLERGYMAN.—The Rev. Mr. Goodspeed, of this city, has been selected to deliver the oration before the alumni of the Rochester (N. Y.) University in 1861. Mr. G. is a graduate of that institution.

SUPREME COURT—July 16.—State ex rel. Attorney General vs. Isaac E. Messmore.—Justice Paine. Motion to quash information and writ denied.

First Circuit.—Nos. 5, 6 and 7 argued.

ACCIDENT.—This morning, while raising some joists to the 4th story of Jackman & Smith's new building, a workman named Wm. Albrick was severely injured. He had passed a noose around the end of the joists, but had not sufficiently tightened it, and it slipped while raising the joists. One of them struck him on the shoulder breaking the blade; he also suffered several other external injuries, and was injured internally, though to what extent from the latter cannot now be told.

CAMP MATTERS.—Last Saturday evening about eighteen hundred of the soldiers in Camp Randall bathed in Fourth Lake.

Friday evening a prayer meeting in the open air was held, which was attended by about five hundred soldiers, and some dozen or two ladies from town.

A lodge of good templars has been established, and three hundred united with it.

The members of the bar of Dane county and the citizens of Madison generally, have raised a subscription and purchased a fine stallion for Lieut. Col. Atwood. The price paid for it was $300.

The health of the regiments was excellent—only one man being dangerously ill. He belongs to the Anderson Guard, sixth regiment, and is down with congestion of the lungs.

The Chicago Tribune says, that for a single place in the Chicago postoffice, the vacancy of which was made more than usually public, there were within the week succeeding, nearly *five hundred* applicants, and this well indicates the pressure for places in that office.

The Richmond papers make great boast that the name of the rebel who killed Capt. Ward, on board of the Freeborn, at Mathas Point, was James Shreshly, of Stafford, Va. He was armed with a Sharp's rifle, and was a little nearer to the Freeborn than the main body of the soldiers. He took deliberate aim and accomplished his murderous design.

ADJUTANT OF THE 5TH REGIMENT.—The Madison Journal says: T. S. West, lieutenant of company K, of the 5th regiment, has received the appointment of adjutant of said regiment. This is a good selection. Mr. West is a well-drilled officer—is attentive to his duties, and executes them with promptness and fidelity. We congratulate, both the regiment and Mr. West upon this promotion. The regiment has secured a good officer and Mr. West a good position.

NEW MUSIC.—"Mother, oh Sing of Heaven," is the title of a new piece of music just issued by Root & Cady, of Chicago. It is pronounced good by competent judges.

RECRUITING FOR THE NAVY.—Lieut. Stevens, U. S. N., a short time since opened a naval recruiting station in Chicago.

The experiment was highly successful, and the station will probably be continued.

It is confirmed that Mr. Charles Dickens, the great novelist, and his wife, have reconciled the unhappy differences that had caused their separation, and are again living together.

ALL SORTS OF PARAGRAPHS.

The last news from Europe represents the condition of the Pope as critical. Indeed, it is stated that the question of his successor is already freely canvassed in the College of Cardinals. An abscess in the leg has affected his entire system; and his medical advisers give but little encouragement that he will recover.

The first order issued by Speaker Grow, upon taking possession of the splendid room assigned to him, was that the doorkeeper should remove the marble bust of the traitor, Ex-Speaker Orr, from the bracket where it was placed by the consent of Orr, and that the fine marble bust of John Quincy Adams, that formerly occupied a niche in the old Representative Hall, be substituted. The order was executed to-day. The original subscribers to Orr's bust can undoubtedly have the same by calling for it, the present owners having no use for it.

GEN. HARNEY.—This gentleman has been in St. Louis the past two months. The St. Louis News says there is a strong probability of his being shortly assigned to an important command in active service.

The entire force now under Gen. McClellan's command in Western Virginia, amounts to about thirty-four thousand men, consisting of nineteen Ohio regiments, nine Indiana regiments, three Virginia regiments, two Kentucky regiments, the Chicago Sturges Rifle Corps (being Gen. McClellan's body guard,) Capt. Barker's and Capt. Sceaumbeck's Chicago Dragoons, and the Cincinnati Rover Dragoons, two companies of regular artillery, the Coldwater (Mich.) artillery, and one company of flying artillery, besides one other troop of horse.

The residents of Nantucket (Mass.) were much surprised on Saturday last, by the appearance of what seemed a light snow storm, but which proved to be the falling of a dry, whitish substance, resembling down. It continued several hours, and so resembled a snow storm that the children reported to the teachers that it was snowing.

The earthquake mentioned in our dispatches from Canada on Friday, was distinctly felt in the vicinity of Rochester, N. Y., and also at Syracuse.

Hon. John A. Gurley, member of congress from Cincinnati, will take the field as aid-de-camp to Gen. Fremont, at the close of the present session of congress.

The delivery of a slave to his master by Col. Cowdin of the first Massachusetts regiment at Washington, has created considerable excitement among the troops. It is alleged that the master had no papers by which he could legally claim him.

A cold rain storm prevailed in western New York on the 2d of July, from the effects of which a large number of sheep which had recently been sheared, died.—Some farmers lost ten per cent. of their flocks.

The town of Linsayville, in Canada West, had a terrible visitation by fire on the 5th inst. The heart of the town was destroyed. The losses amount to about $400,000, and its wealthiest men are ruined.

There is difficulty in keeping the Erie canal supplied with water. East of Rochester and west of Albion, there are many boats which are unable to move.

The "hard times," which is pressing hard on most all the eastern papers just now, has forced the Boston Atlas out of existence.

Capt. Bondebamer, of Indiana, is organizing a company of printers in Indiana for the war.

One of the New York regiments contains thirty school-masters. It ought to be able to "lick" the southern boys.

Mr. Lawrence Geoghegan, of Galway, gun-maker, has produced a new blasting powder made from tanner's waste bark, nitrate of soda and sulphur, which is said to be much superior in efficiency to the blasting powder in general use, while it costs not more than half as much.

NO BUSINESS.—The marine lists of Charleston, Savannah, Mobile and New Orleans all now present the same appearance. The various journals in those cities keep the following lines standing under their marine heads: "No clearances yesterday." "No arrivals yesterday."

TERRIBLE, IF TRUE.—F. O. Thorp, of Washington Co., informs us, says the West Bend Post, that he has just received a letter from his father, who resides in Kenosha county, stating that he has received a letter written by one of a company which left there last spring, for California, and in which he states that the whole company, with the exception of himself, were murdered by the Indians, when only a few miles beyond Salt Lake City. It appears towards the close of the day on which this terrible massacre was committed, the surviving member alone was sent on ahead of the main body, for the purpose of securing suitable camping grounds, and that upon his return he found the whole party weltering in their blood, and their teams and provisions missing. Mr. Nathan McCommins, a son-in-law of Mr. Thorp, with his wife, were among those killed. They had been married but a few short weeks previous to their departure for the land of gold, and should this report prove correct (which God forbid,) it will be a terrible blow to their afflicted friends.

Parson Brownlow denies emphatically, in his paper of the 6th, that the secessionists are gaining ground in East Tennessee. He says:

We notify them that the ballot-box, on the first Thursday in August, will again convict them of lying. If they have the recruits they boast of, let them elect members of congress, and to the legislature, from East Tennessee. We give them notice that the Union men intend to elect, and that they will do it fairly, by majorities, and through the ballot-box.

A Washington dispatch, on Saturday, to the New York Commercial Advertiser, says:

Col. Lamon has resigned the marshalship of the District of Columbia, and has gone to Virginia to take command of the regiment that he has raised there in aid of the cause of the Union. Names are already mentioned for the succession to the marshalship, but they are, I imagine, merely conjectural, and therefore I do not repeat them.

DRYING THE COMMON RED CURRANT.—We copy the following method from the last number of the Horticulturist. Many of our readers will find it just in time to give it a fair trial. The editor of the Horticulturist having examined the currant prepared in this way, highly commends it:

The currants should be quite ripe when gathered, with the stems attached, and washed or rinsed effectually and drained off. Then stem them and wash them thoroughly, and to each pound of currants add a quarter of a pound of good Havana sugar; then place them in a preserving kettle over a fire until they come to a *scald heat*, when they are turned out into white earthern dishes, and exposed to the action of the sun until, by evaporation, they become hardened on the upper side. Then they are turned over, and there remain until they become so on the other side, and so alternate until they become a sort of leathery texture, when they are put away in earthen jars or boxes until wanted for use. Care must be taken to keep them from the dews of night and rains during the process of drying; finally, the utmost cleanliness should be observed from first to last.

When used enough hot water is required to disolve them or render them to any consistency suitable for tarts, jelly, &c. At the same time, more sugar is required to make them quite palatable, which must of course be governed by taste. Currants in this way have kept well with us for three years, and the presumption is, that they will keep for a longer time if well cared for.

MRS. GEO. H. HITE.

A SPY OUTWITTED.—The circumstances connected with the arrest of R. H. Alvery, a Maryland secessionist, and another spy with whom he was in communication, are curious and interesting:

"One night last week the picket guard stopped a man on the road to Hagerstown, who answered the guard's inquiries by saying that he wished to see Gen. Patterson, but when about to be introduced at headquarters, wished to evade the interview.—He was instantly seized and searched, and dispatches were found upon him from the rebel General Johnston to Mr. Alvery. McMullen, one of Gen. Patterson's aids, forthwith stripped the rebel spy, dressed one of his own men in the rebel's clothes, gave him Johnston's letter, and started him off to see Mr. Alvery. The dispatches, however, had been nicely opened, copies taken, and then resealed. McMullen's man was received by Alvery, who thus fell into the trap most beautifully. Alvery unfolded all his plans, and gave him written answers to Johnston's dispatches. The supposed friend conveyed conveyed Alvery's documents to General Patterson. The arrest took place quietly the next day. When Alvery was confronted with the documents and the indisputable evidence of his treachery, it is said he was completely unmanned, and sunk under the burden of his guilt."

PURSUIT OF THE PRIVATEER JEFF. DAVIS.—Immediately upon the receipt of the news relative to the seizure of vessels by the privateer Jeff Davis, the government at Washington ordered a fleet of revenue cutters and gunboats to be despatched from this port in quest of the daring privateer. The command of the fleet was confided to Capt. Howard, and the cutters Jackson, Crawford and Varina went promptly to sea, in tow of the steamboat Mercury. The Henrietta, Lieut. J. G. Bennett, Jr., now lying off the battery, will start in pursuit of the pirate to-day, provided her guns arrive in time. The gunboat Iroquois, one of the fastest in the navy, will also start on the same errand to-day, so we shall have five armed vessels in pursuit of the Jeff Davis before many hours. The prospect of encountering and capturing the piratical craft is very encouraging. The Jeff Davis was formerly the slaver Echo.—*N. Y. Herald, 13th.*

A REGIMENT OF WARRIORS.—We learn that E. S. Ingalls, and John Kitson, Esqs., have written to the secretary of war, tendering to the government the services of a regiment of Chippewa Indians, to consist of not less than five hundred, and not exceeding one thousand. They offer to the government, if the regiment is accepted, to have them in the field, armed and equipped, with no expense to the government, except transportation and food, in six weeks from the time orders are received.

Judge Ingalls has also written to the secretary, in case the above offer is not accepted, inquiring if a company of "pinery boys" as riflemen would be received—the company to be raised on the Menomonee. If the first offer is accepted, we think that an excellent regiment could be placed in the field; and if the last, there would be nothing in the service much superior to the Menomonee river boys.—*Oconto Pioneer.*

Mr. Bonner, of the Ledger, presented Mr. Everett, on the 4th of July, with a check for $1,000, to be given to the families of the Massachusetts volunteers. Mr. Everett wished to divde the proceds of his oration in this city between New York and Massachusetts, but Mr. Bonner persuaded him to give all to the families of volunteers here, and in return for which he presented Mr. Everett with the sum just mentioned. —*World.*

To the Land Owners of Janesville.

Being about to leave for my post at Galway, Ireland, if those citizens having cheap lands for sale in this state, will furnish me with particulars, of the lowest price, terms of payment, quantity, quality, location, &c., I will most probably be enabled to find Irish purchasers, to whom my extensive knowledge of this country and my having written so copiously on it, enables me to give valuable information, and thus promote the best interests of all parties concerned. As for salubrity of climate and adaptation for agriculture, I think Wisconsin superior to any other western state, and my numerous friends here may rest assured that their beautiful "Flower City of the West," with its many educational and business facilities shall not be overlooked or forgotten. COMMERCIAL.

Janesville Wholesale Market.

Reported for the Janesville Gazette, BY BUMP & GRAY. GRAIN AND PRODUCE DEALERS.

JANESVILLE, JULY 17, 1861.

The wheat market was considerably firmer to-day, which is owing to the recent favorable advices from foreign markets. Millers seem anxious for choice samples at 62@63c, and shippers took common to fair quality at 50@60c. About 1000 bushels changed hands at the above figures. Receipts of coarse grains continue very light, not enough coming forward to supply home demand. We quote corn firm at 16@18c per 56 lbs shelled and 15@16c per 72 lbs ear, and oats at 14@15c per bushel. No change in other produce.

We make up prices as follows:

WHEAT—good to choice milling spring 62a63, currency; fair to good dry shipping 60a62; rejected 30a40. The above figures are for currency, a deduction of 5 and 8c per bushel is made payable in gold.

CORN—16a18 per 60 lbs. shelled, and 14a16c per 72 lbs., ear.

OATS—good local and shipping demand at 14a15.

RYE—quiet at 20a25c per 60 lbs.

BARLEY—dull sale at 15a35c per 50 lbs., common to good quality.

TIMOTHY SEED—dull at 1,40a1,75 per 45 lbs.

POTATOES—plenty and very dull at 10a15c. per

BUTTER—plenty at 10a12½c fair to choice roll.

EGGS—plenty and dull at 6c per dozen.

WOOL—ranges at 15a27c for common to choice fair clean clips.

HIDES—Green, 2½a3; Dry, 5a7.

FLOUR—spring at retail 2,25, per 100 lbs.

POULTRY—dressed turkeys, 6½a7; chickens, 5a6

SHEEP PELTS—range from 30c@90 each.

McKey & Bro.'s July Circular.

GREAT ARRIVAL OF MERCHANDIZE AT McKEY & BRO'S.

THIS is the third arrival of goods received this Spring and Summer by our house. The business we have done since the 1st day of March

HAS DOUBLED

that of former years, for the same period; all owing to the fact that we purchase our goods for nett cash. The stock now coming to hand was purchased at the

Greatest Sacrifice,

less than half the cost of importation, by E. McKey, who has been east for the past two months. We have also a resident buyer in New York city, exclusively for the purpose of picking up the

GREATEST BARGAINS

in merchandize.

The immense rush to our house recently, is sufficient evidence in itself that we labor for the

Benefit of the People.

We still continue to deal out to the community those great and incomparable bargains; for instance, we have in stock and shall continue to sell as usual, notwithstanding the great advance on Cotton Goods,

50,000 Yards of the Best Prints

in the United States, consisting of

MERRIMACK, COCHECO, PHILLIP ALLEN'S, SPRAGUES

and every other good brand in the market, at 10 cents per yard, worth 1 shilling to-day in New York, Chicago or Milwaukee. Also,

20,000 Yds Full Madder Prints

at 8 cents, or 12½ yards for one dollar.

Received this day 50 Bales of

Sheetings, Ticks, Shirtings, Denims, &c., &c.

Anticipating an advance in Cotton Goods, we were induced to invest very largely in the article, enabling us to sell at our usual prices.

300 PIECES BEREGES

of all colors for dresses, to which we call attention. We will sell 12 yards of Berege for 75 cents; just the article for the season; only think, 6¼ cents per yard for Bereges.

175 Pieces Finest Berege DeLaine

in the market, at 20 cents per yard—all new styles—got up for this month expressly. The usual quantity of 1 shilling goods on hand. Please read the annexed attentively. We have this day received 4 cases of French and English

Mulls and Organdies,

cost of importation 56 cents, intended for the southern trade exclusively, and now offered by our house at 25 cents per yard. The patterns are original, and the first time ever offered in this city. About

10,000 Yards of Lawns

on hand. We offer 10 yards of fast colored Lawn for $1.

OUR STOCK OF

Dress Silks

is much larger than we have ever had at this season of the year. We offer this day a splendid heavy silk at

FIFTY CENTS, WORTH ONE DOLLAR.

We are now opening a large lot of

FRENCH PRINTS

full yard wide, at 2 shillings per yard, never sold by us less than 3 shillings.

We have now open and ready for inspection between 3000 and 5000

SHAWLS AND CLOAKS,

consisting of Burnous, Shawlettes, Arabs and other styles at a great reduction from former prices.

Our stock of

TRAVELING DRESS GOODS

is now complete, consisting of the following: Robes De Montijo, Ermenettes, Paris Poplins, Lustres, Mozambique, Mottled Modena, Milanos, Tolle De Napies, Scella and Lucina Seraphinas, French Organdies, Lawns, Figured Brilliants, French Calico, English and French Bereges and many other styles not mentioned.

All of the above have been purchased within the past week.

In Carpets, Oil Cloths and House Furnishing GOODS

we have a full and complete assortment.

It is now conceded that McKey & Bro.'s Clothing House is the place to get

Clothing, Hats, Caps, &c., &c.

Our retail stock this day is larger than many Jobbing Houses in New York city.

AN IMMENSE STOCK OF

Boots and Shoes

on hand as usual, cheap.

Our Wholesale Trade has been large, much beyond our expectations, so much so, that we intend adding a large space for that department alone, to meet the wants of the coming

Fall Trade.

We purchase for cash and can afford to undersell Western Houses who buy on credit and sell on the same terms, our business being done exclusively for cash.

In conclusion we would say that we never had a more

Complete or Well Selected Stock of Goods

since our commencement in business in this city, and were never more desirous of

REDUCING IT,

thereby offering to the public the

GREATEST BARGAINS

in the annals of merchandize.

Insurance against loss or damage by fire, on Dwellings, Furniture, Stores, Warehouses, Merchandise, Mills, Manufactories, and most other kinds of property, can be effected in this company upon as favorable terms as the nature of the risks and security of policy-holders will admit.

The above is the oldest company doing business in this state, and with peculiar propriety has been denominated "*The Old Hartford*." As an *indemnity* to the insured, it has paid millions of assets well invested; and if anything were needed to commend it to the public for liberal patronage, we might offer its history of success in business and honorable dealing with its patrons, for over half a century, as amply sufficient for the purpose.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors*. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

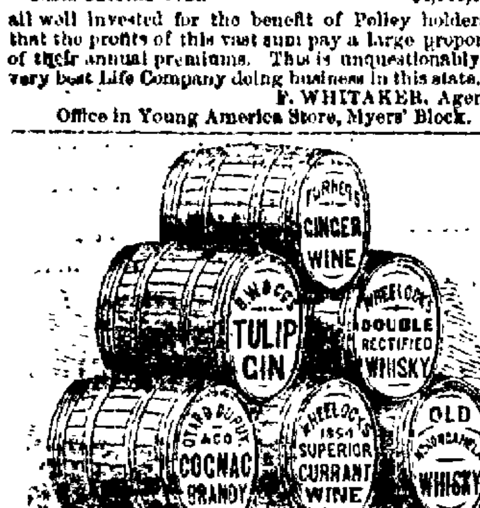

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty*. All losses promptly adjusted and paid.

New York Life Insurance Company,

CASH CAPITAL OVER $1,000,000

all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

HEADACHE,

THAT A

SPEEDY AND SURE CURE

IS WITHIN THEIR REACH.

As these Testimonials were unsolicited by MR. SPALDING, *they afford unquestionable proof of the efficacy of this truly scientific discovery.*

MASONVILLE, Conn., Feb. 1, 1861.

MR. SPALDING, SIR:

I have tried your Cephalic Pills, and *I like them so well* that I want you to send me two dollars worth more.

Part of these are for the neighbors, to whom I gave a few out of the first box I got from you.

Send the Pills by mail, and oblige

Your ob't servant,
JAMES KENNEDY.

HAVERFORD, Pa., Feb. 6, 1861.

MR. SPALDING, SIR:

I wish you to send me one more box of your Cephalic Pills, *I have received a great deal of benefit from them.*

Yours respectfully,
MARY ANN STOIKHOUSE.

SPRUCE CREEK, HUNTINGTON CO., Pa., January 18, 1861.

H. C. SPALDING, SIR:

You will please send me two boxes of your Cephalic Pills. Send them immediately.

Respectfully yours,
JNO. B. SIMONS.

P. S.—*I have used one box of your Pills, and find them excellent.*

BELLE VERNON, Ohio, Jan. 15, 1861.

HENRY C. SPALDING, Esq.

I wish for some circulars or large show bills, to bring your Cephalic Pills more particularly before my customers. If you have anything of the kind, please send to me.

One of my customers, who is subject to severe Sick Headache (usually lasting two days,) *was cured of an attack in one hour by your Pills*, which I sent her.

Respectfully yours,
W. B. WILKES.

REYNOLDSBURGH, FRANKLIN CO., OHIO, January 9, 1861.

HENRY C. SPALDING,

Useful and Economical.

THE MOST USEFUL

MACHINES AND IMPLEMENTS

In use, are, or have been

SUBJECTS OF PATENTS.

"INVENTORS are public benefactors. To be liberal in their protection, is only to be just towards the rights of property, and tends to increase the public wealth and hasten the progress of practical improvements and of science. * * * The settled doctrine of the courts, now, under the light of large experience, is, to incline to constructions most favorable to patents."—*Extract from opinion of U. S. Court in a late Patent Case.*

Three-fifths of the earth's surface is covered with water. Vast sums of money and the best mechanical and engineering skill has, for ages, been employed to perfect machinery to bring this universal and indispensable element into convenient use.

May's Patents.

Double and Single Acting Pumps.

For any depth of mining shafts and wells, *open or drilled*, to 500 feet.

No suction pipes, no packing, no bolts, no pumping rods.

Are composed of *two metalic cylinders and two brass valves*, and *wrought-iron* conducting pipe.

Are operated by a wrought-iron lever, and by means of a compensating balance device, they work very easy by hand, wind mill or other power, at whatever depth, and work without noise.

They *cannot freeze*.

Save Repairs, Vexation and Expense!!!

Those longest in use (about 2 years) need no repairs and exhibit no perceptible wear, and possess valuable qualities unknown in any other pumps.

"Blow winds and crack your cheeks! rage! blow!"
—*King Lear.*

The winds are found to be the *Cheapest Motor* in existence and highly serviceable for many mechanical purposes, as pumping, sawing, turning, grinding, &c., &c.

WIND ENGINES, OR MILLS,

LATEST IMPROVEMENTS,

May's Patents.

These ENGINES are perfectly *self-regulating* and under easy control, *independent of their self-governing qualities.*

They are STRONG and DURABLE,

No pains or expense has been spaired to *simplify* and *perfect* both *pumps and engines* to make them UNRIVALLED in quality, and ECONOMICAL in price.

Every article, whether *Pump or Engine*, WARRANTED.

Call and examine thoroughly before buying.

Orders Filled on Short Notice!!

These Pumps and Engines are secured by

Five Patents and Fifteen Claims.

Like most valuable Patents, they are already infringed.

Infringement rigidly prosecuted, unless settled.

Also, on hand

CARY'S ROTARY FORCE PUMPS,

for Mills, Factories, &c., and some of the best unpatented pumps, in prices from $2,50 and upwards. Any person with a little mechanical skill can set them up, but competent workmen furnished when desired, at their per diem wages and expenses.

For PUMPS, ENGINES, *together or separate*, and for rights of territory (as counties, &c.,) also for price lists and bills, address or apply to

of the Wisconsin Engine and Pump Co.

Office in May's buildings, corner Main and Milwaukee streets, Janesville, Wis.

N. B.—Large inducements to active, thorough, competent men, to canvass and supply specific territory, as towns, counties, districts, &c.

Address as above.

From the favorable opinions of Agriculturalists and others using these Engines and Pumps, together and separate, the following are selected:

Pumps, Without Engine,

In a half hour at ordinary pumping speed, I supply my stock of from forty to fifty head of cattle and horses, with one of May's Patent Pumps. Well 70 feet deep, last 30 feet drilled. I can find no fault with this pump, and use it in place of another kind that was very often out of repair. Being composed of few and streng places, and built on scientific principles, I think they must be very durable. R. W. SCHENCK.

Bradford, Rock county, Wis., January 29th, 1861.

I supply with water 690 sheep, some 60 head of cattle and 10 head of horses, with May's Patent Pump. Its *great strength*, apparent durability and above all the great amount of water it raises in a short time, and its easy working, gives it with me a decided preference over any other pump in the market.

C. M. CLARK.

Whitewater, Walworth Co., Wis., Jan. 31st, 1861.

Since the 1st of October last we have been using one of May's Patent Pumps, and it gives us entire satisfaction. Our well is 120 feet deep and the pump is worked by horse power or by hand. In addition to pumping water for stock and farm purposes, we use large quantities for our Brewery. REEVES & WADDLE.

Middleton, Dane county, Wis., Jan. 22d, 1861.

I am using one of May's Patent Pumps in place of a *deep well pump of another kind*, that was often out of order and worked hard. Well 122 feet deep, 72 feet drilled in solid rock, and pump placed 101 feet from surface. Its great strength and simplicity pleases me, and am surprised and gratified with the large amount of water raised with little labor, 6 to 8 full strokes of the lever filling a bucket. I deem it one of the most valuable improvements of the age for raising water.

JOHN TRACY.

Center, Rock county, Wis., Feb. 27th, 1861.

Pumps, With Engines.

I am using one of May's Patent Pumps and Self-Regulating Wind Engine (or Mill) on one of my farms near Janesville. Well 83 feet deep. Pump and mill used together, or may be separated in a moment. One to two hours daily is sufficient to pump water for my stock. Also, the pump works very easy by hand and is the first one, after trying different kinds, that gives me *entire satisfaction*. Having no *bolts, packing, suction pipe, or pumping rods*, and being made *heavy* and *strong*, think they must be very durable. A. HOSKINS.

Janesville, Jan. 11th, 1861.

I am using a wind engine, and pump of May's patent in a well 65 feet deep. I deem them very valuable improvements, and agree with Mr. Hoskins in the above expressed opinion. I had been using a Seneca Falls pump that did not answer my purpose.

WM. SCHENCK.

Bradford, Rock Co., Wis., Jan. 24th, 1861.

Engines.

Rock Terrace, Wis., Feb. 8th, 1861.

Since November 1858, I have been using one of May's Patent *Wind Engines*, pumping water from a well 186 feet deep. The Engine is a powerful one, often pumping fifty barrels of water per day. It stands 110 feet from the well and the power is communicated from the Engine to the well, underground.

I deem these Engines of great value, saving a vast amount of hard manual labor, and as their merits are understood, think they must come into general use.

J. V. ROBBINS.

These pumps and engines have taken first premiums when exhibited in competition at state and county fairs.

Write for price lists &c., and if estimates are wanted give depth of well—open or drilled, and amount of water required. Address as above.

Also for sale, the Patents in the unsold territory for Badger's Portable Grist Mill, Gilmore & May's Rock Drill, Stone Dressing Machine and Quartz Rock Crusher, and Nash & Cutts' Grain Separator. All late Patents, are meritorious and sell freely. Address,

J. M. MAY, Agent, &c., as above.

Insurance against loss or damage by fire, on Dwellings, Furniture, Stores, Warehouses, Merchandise, Mills, Manufactories, and most other kinds of property, can be effected in this company upon as favorable terms as the nature of the risks and security of policy-holders will admit.

The above is the oldest company doing business in this state, and with peculiar propriety has been denominated "*The Old Hartford.*" As an *indemnity* to the insured it refers to a solid million of assets well invested; and if anything were needed to commend it to the public for liberal patronage, we might offer its history of success in business and honorable dealing with its patrons, for over half a century, as amply sufficient for the purpose.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors*. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial* and *one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty*. All losses promptly adjusted and paid.

New York Life Insurance Company,

CASH CAPITAL OVER $1,900,000

all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

Useful and Economical.

THE MOST USEFUL

MACHINES AND IMPLEMENTS

In use, are, or have been

SUBJECTS OF PATENTS.

"INVENTORS are public benefactors. To be liberal in their protection, is only to be just towards the rights of property, and tends to increase the public wealth and hastens the progress of practical improvements and of science. * * * The settled doctrine of the courts, now under the light of large experience, is, to incline to constructions most favorable to patents."—*Extract from opinion of U. S. Court in a late Patent Case.*

Three-fifths of the earth's surface is covered with water. Vast sums of money and the best mechanical and engineering skill has, for ages, been employed to perfect machinery to bring this universal and indispensable element into convenient use.

May's Patents.

Double and Single Acting Pumps.

For any depth of mining shafts and wells, *open or drilled*, to 500 feet.

No suction pipes, no packing, no bolts, no pumping rods.

Are composed of *two metalic cylinders and two brass valves*, and *wrought-iron* conducting pipe.

Are operated by a wrought-iron lever, and by means of a compensating balance device, they work very easy by hand, wind mill or other power, at whatever depth, and work without noise.

They *cannot freeze*.

Save Repairs, Vexation and Expense!!!

Those longest in use (about 2 years) need no repairs and exhibit no perceptible wear, and possess valuable qualities unknown in any other pumps.

"Blow winds and crack your cheeks! rage! blow!"
—*King Lear.*

The winds are found to be the *Cheapest Motor* in existence and highly serviceable for many mechanical purposes, as pumping, sawing, turning, grinding, &c., &c.

WIND ENGINES, OR MILLS,

LATEST IMPROVEMENTS,

May's Patents.

These ENGINES are perfectly *self-regulating* and under easy control, *independent of their self-governing qualities*.

They are STRONG and DURABLE.

No pains or expense has been spaired to *simplify* and *perfect* both *pumps and engines* to make them UNRIVALLED in quality, and ECONOMICAL in price.

Every article, whether *Pump or Engine*, WARRANTED.

Call and examine thoroughly before buying.

Address as above.

From the favorable opinions of Agriculturalists and others using these Engines and Pumps, together and separate, the following are selected:

Pumps, Without Engine.

In a half hour at ordinary pumping speed, I supply my stock of from forty to fifty head of cattle and horses, with one of May's Patent Pumps. Well 70 feet deep, last 30 feet drilled. I can find no fault with this pump, and use it in place of another kind that was very often out of repair. Being composed of few and strong pieces, and built on scientific principles, I think, they must be very durable. R. W. SCHENCK.

Bradford, Rock county, Wis., January 29th, 1861.

I supply with water 600 sheep, some 60 head of cattle and 10 head of horses, with May's Patent Pump. Its *great strength*, apparent durability and above all the great amount of water it raises in a short time, and its easy working, gives it with me a decided preference over any other pump in the market.

C. M. CLARK.

Whitewater, Walworth Co., Wis., Jan. 31st, 1861.

Since the 1st of October last we have been using one of May's Patent Pumps, and it gives us entire satisfaction. Our well is 126 feet deep and the pump is worked by horse power or by hand. In addition to pumping water for stock and farm purposes, we use large quantities for our Brewery. REEVES & WADDLE.

Middleton, Dane county, Wis., Jan. 22d, 1861.

I am using one of May's Patent Pumps in place of a deep well pump of another kind, that was often out of order and worked hard. Well 122 feet deep, 72 feet drilled in solid rock, and pump placed 101 feet from surface. Its great strength and simplicity pleases me, and am surprised and gratified with the large amount of water raised with little labor, 6 to 8 full strokes of the lever filling a bucket. I deem it one of the most valuable improvements of the age for raising water.

JOHN TRACY.

Center, Rock county, Wis., Feb. 27th, 1861.

Pumps, With Engines.

I am using one of May's Patent Pumps and Self-Regulating Wind Engine (or Mill) on one of my farms near Janesville. Well 83 feet deep. Pump and mill used together, or may be separated in a moment. One to two hours daily is sufficient to pump water for my stock. Also, the pump works very easy by hand and is the first one, after trying different kinds, that gives me *entire satisfaction*. Having no *bolts, packing, suction pipe, or pumping rods*, and being made *heavy* and *strong*, think they must be very durable. A. HOSKINS.

Janesville, Jan. 11th, 1861.

I am using a wind engine, and pump of May's patent in a well 65 feet deep. I deem them very valuable improvements, and agree with Mr. Hoskins in the above expressed opinion. I had been using a Seneca Falls pump that did not answer my purpose.

WM. SCHENCK.

Bradford, Rock Co., Wis., Jan. 24th, 1861.

Engines.

Rock Terrace, Wis., Feb. 8th, 1861.

Since November 1858, I have been using one of May's Patent *Wind Engines*, pumping water from a well 186 feet deep. The Engine is a powerful one, often pumping fifty barrels of water per day. It stands 110 feet from the well and the power is communicated from the Engine to the well, underground.

I deem these Engines of great value, saving a vast amount of hard manual labor, and as their merits are understood, think they must come into general use.

J. V. ROBBINS.

These pumps and engines have taken first premiums when exhibited in competition at state and county fairs.

Write for price lists &c., and if estimates are wanted give depth of well—open or drilled, and amount of water required. Address as above.

Also for sale, the Patents in the unsold territory for Badger's Portable Grist Mill, Gilmore & May's Rock Drill, Stone Dressing Machine and Quartz Rock Crusher, and Nash & Cutts' Grain Separator. All late Patents, are meritorious and sell freely. Address,

J. M. MAY, Agent, &c., as above.

DAILY GAZETTE.

Correspondence of the Cleveland Plaindealer.
One of the Cleveland Home Guards.

The moment the flag was threatened large bodies of men were called upon to rally in its defence. Being a large bodied man, I rallied and enrolled myself with the Home Guards. The drill is very severe on me this hot weather, although I am constantly allowed an attendant with a fan and a pitcher of ice water. I am a living paradox, for while getting *Hardee* I am daily growing weak. Talk about "the times that tried men's souls," these are the times that try men's fat if they have got any. The captain takes pleasure in putting me thro' at a double quick. When I go off I think will be with a "double quick" consumption.

I am constantly reminded that one of the first requirements of a soldier is to throw out his chest and draw in his stomach.—Having been burned out several times while occupying rooms in the attic, I had considerable practice in throwing out my chest, but by what system of practice could I ever hope to draw in my stomach? I can't "dress up"—it's no use trying. If my vest buttons are in line I am far in the rear, and if I toe the mark a fearful bulge indicates my position. (There is no room for argument in regard to my sentiments—everybody can see at a glance just where I stand.) One evening we had a new drill sergeant who was near sighted. Running his eye down the line he exclaimed, sharply, "What is that man doing in the ranks with a bass drum?" He pointed at me, but I hadn't any drum, it was the surplus stomach that I couldn't draw in.

I am the butt of numberless jokes, as you may well suppose. They have got a story in the guards that when I first heard the command—"Order Arms"—I dropped my musket, and taking out my note-book began to draw an order on the governor for what arms I wanted. They say I ordered the Winan's steam gun, with a pair of Dahlgren howitzers for side arms. Base fabrications. My ambition never extended beyond a rifled cannon, and they knew it.

Although in respect to size I belong to the "heavies," my preference is for the Light Infantry service. My knapsack is marked Light Infantry. One evening spectators appeared convulsed about something and my comrades tittered by platoons whenever my back was turned. It was all a mystery to me until I laid off my knapsack.—Some wretch had erased the two final letters and I had been parading all the evening labeled "LIGHT INFANT!" The above is one of the thousand annoyances to which I am subjected, and nothing but my consuming patriotism could ever induce me to submit to it. I rallied at the call of my country and am not to be put out by the *rallying* of my comrades.

I overheard a spectator inquire of the drill Sergeant one day, "Do you drill the whole of him at once?"

"No," he returned, in an awful whisper, "*I drill him by squads!*"

I would have drilled him if I had had a bayonet.

Specifications have been published in regard to my uniform and contractors advertised for. The making will be let out to the lowest responsible bidder. In case the Guards are ordered to take the field a special commissary will be detailed to supply my rations. That reminds me of a harrowing incident. On last drill night an old farmer, who dropped in to see us drill, took me aside and said he wanted to sell me a yoke of powerful oxen.

"My ancient agriculturist," said I, smiling at his simplicity, "I have no use for oxen."

"Perhaps not at present," quoth he, "but if you go to war you will want them."

"For what?" said I, considerably annoyed.

"*Want 'em to draw your rations!*"

The Guards paid me a delicate compliment at the last meeting. They elected me "Child of the Regiment" with the rank of First Corpulant, and the pay of chief "Blowyer." I was about to return thanks in a neat and appropriate speech when a reporter who was present assured me it was no use—he had got the whole thing in type, speech and all, and I could read it in the evening paper. He said they kept a "neat and appropriate speech," standing in type continually. I got his views and held my peace. Yours for the Union, including
the Stars, also the Stripes,
FAT CONTRIBUTOR.

HOW CARTRIDGES ARE MADE.—The operation of cartridge-making I may briefly describe. The first operation consists in uniting a moderately stiff manilla wrapping paper into pieces two and a half inches long by one and a half wide. These are folded into a thimble or a cap, into one end of which is placed the conical minie bullet. A more pliable piece of wrapping paper some three inches by five, is rolled round the cap and bullet, the end of the wrapper being drawn, by a very ingenious process, tightly over the point of the bullet, and tied so as to render the end perfectly tight.

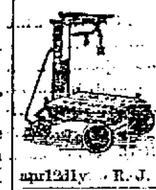

The bullets weigh an ounce, and are really ugly customers to contemplate.—They are greased before being put in the cartridge, which has the effect of clearing the musket in frequent and rapid firing. The cartridge tubes, with ball at the closed end, are then taken in shallow boxes, and standing upright, are, by an ingenious contrivance, filled with the necessary charge of powder, being poured from a kind of kettle. The powder and ball just fill the inner thimble or tube. The long end of the outer wrapper is then folded over, and they are packed in bunches of ten, with a small package containing twelve percussion caps. The packages are again placed in boxes of one hundred, ready for transportation. When the soldier has occasion to load his musket, he takes from his pouch one of these cartridges, bites off the folded end, and turns the contents into the muzzle of the gun.

The common vocabulary in all languages is limited. An agricultural laborer employs about three hundred words, an eloquent speaker often uses ten thousand.—The bible contains six thousand. Milton uses eight thousand and Shakspeare fifteen thousand.

A traveler who has just returned from the west, relates an incident which illustrates the spirit of patriotism prevailing in that section. Stopping at a little town, of apparently but a few hundred inhabitants, he inquired if any volunteers had gone to the war from that town. "I reckon there has, stranger. We've sent two companies, and have got another as mad as hornets because they can't go."—*Springfield (Mass.) Republican.*

TESTIMONIAL.
To Whom it May Concern:

I AM now over 60 years of age. Three years since I became blind from Cataract in both eyes. Soon after I became blind an attempt to restore my sight by an operation was made in this city, which was unsuccessful. Hearing of the reputation of Dr. Folsom, as a skillful oculist, I was induced to consult him, though with very little hopes of relief. The doctor proposed an operation, to which I consented, which resulted in almost Perfect Restoration of Sight to one eye. He afterwards performed an operation on the other eye with success. I am now enjoying the inestimable blessing of good vision, and a much better general state of health than before. THOS. VAUGHN.

Forever float that standard sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

From Missouri.

The rebels are still active on the Missouri river, and at scattered places in various parts of the state. There has been some fear, of late, of an attack on Jefferson City. There are two regiments of troops there besides a home guard of a thousand men.

The traitors will require two or three more good thrashings, before they will keep quiet in Missouri, and the most prominent points must be occupied by a sufficient body of troops to overawe them until they come to their senses. Perhaps hanging would do some of them good.

Forward to Richmond.

The country will learn with much satisfaction that the grand army at Washington commenced its forward movement towards Fairfax Court House on Tuesday night.—The news was received last night and it is confirmed to-day, so there is little room to doubt the truth of the statement.

Now that an advance has been made, we may expect that the march will be rapid, that as much of the fighting may be done, as possible, before the expiration of the term of enlistment of many of Gen. McDowell's troops, which takes place within the next fortnight.

Militia of the Seas.

The recent activity manifested by Jeff Davis' privateers, has called the attention of congress to the proposition to employ a volunteer navy. We have no doubt, if proper encouragement were given, it would rival our volunteer army in importance. We believe that it is fortunate that these piratical excursions have taken place at this time; it will be the cause of speedily developing one of our most important means of national defence, aided and encouraged by proper congressional legislation.

The expense and danger of a standing army has made it unpopular with the American people; to take its place in time of public danger they have inaugurated the volunteer system, which can be maintained in a state of efficiency without great expense to the public treasury. The cost of armies is weighing down the governments of Europe, and must be dispensed with, or they will ruin the nations who employ them. So with navies: England and France are expending untold sums of money upon great ships of war. The contest will cost them millions of money, and will bankrupt both nations if persisted in. It is evident that the United States cannot and ought not to take part in this contest of extravagance in building a navy. We must build large ships, it is true, for special service, but to have enough of them to defend our extensive sea coast and enormous commerce, scattered on every sea, will cost more than we can pay. Some other scheme must be adopted. As we have dispensed with a large standing army by adopting the volunteer system on the land, so we must on the sea. We are well situated to do this, as our mercantile marine is larger than that of any nation of the world—more active, braver and more enterprising. It is by this fortunate position which we occupy that we may now adopt a system which will give us the supremacy of the seas. This is one of the grand ideas of our time, and if our rulers are equal to the occasion, we shall lay the foundation of American greatness, on the sea as well as on the land, by our volunteer system for both.

Our merchant ships, now lying idle, might be commissioned to capture privateers, which are generally of the same kind and size. Armed with rifled cannon, our vessels could be used to blockade the southern coast, and be able to penetrate bays and creeks where large vessels of war would not float, and thus aid materially in suppressing the rebellion.

The far west is interested in this matter. The price of wheat is now lower, by a large per cent. than it would be if the privateers had not infested the ocean, making freights higher, on account of the high rates of insurance, or by giving the monopoly of the carrying trade to England. We are therefore directly interested in having a "militia of the seas" able to clear the ocean of all pirates and every foe to a free intercourse with the old world.

ROBBERY IN KENOSHA.—The Kenosha Telegraph says, a gentleman from New York was knocked down on Main street in Kenosha, a few nights since, about midnight, and robbed of a gold watch, by some two or three men. He was left bleeding on the sidewalk, and with much difficulty managed to reach the City Hotel.

FIFTH REGIMENT.—On mustering this regiment into the U. S. service, only four were rejected, and three refused to take the oath; the latter were subjected to rather severe treatment and concluded afterwards that they would enlist for the war—but the regiment refused to admit them.

Among the goods destroyed by the late terrible fire in London were 17,764 bales of India cotton.

Special dispatches to the Cincinnati Gazette.

The Battle of Cheat River.

CARRICK'S FORD, July 14.

On the night of the 11th, the rebel army at Laurel Hill, under the command of Brig. Gen. Garnett, evacuated its camp in great haste, immediately on learning of Gen. McClellan's approach to Beverly, and retreated in that direction, apparently hoping to pass Beverly before Gen. McClellan's arrival, and thus escape the trap set for them by a passage through Cheat Mountain Gap.

The evacuation was discovered on the morning of the 12th, and a pursuit immediately ordered.

By 10 o'clock the 9th Indiana entered the rebel camp at Laurel Hill, and found a large number of tents, a lot of flour, camp equipage and clothing, and a dozen of their sick and wounded, with a note requesting us to give them proper attention.

The whole road, for twenty miles, was strewn with the baggage thrown from their wagons to lighten the loads and hasten their retreat, and obstructed fallen trees to delay pursuit.

The rebel army went within three miles of Beverly, and there met the rebels flying from Rich Mountain, and, finding an escape to Huttonsville impossible, all united and returned toward Laurel Hill until they reached the Leading Creek pike, and took that road in the direction of St. George.

Gen. Morris' army pursued them for a mile or two beyond Leedsville that night, and halted from 11 o'clock to 3 this morning, when the advance resumed the pursuit and continued it all day, in spite of the incessant rain pouring down. On the route of the rebel army, the latter left the pike, struck Cheat river, and pursued the mountain road down the valley. Their passage with heavy wagon trains rendered the road almost impassable. They were still without food—some for over twenty-four hours.

Our advance, composed of the Fourteenth Ohio, Seventh and Ninth Indiana regiments, pushed on, guided through the mountain gullies by the tents, camp furniture, provision and knapsacks thrown from the rebels' wagons to facilitate their flight. We forded Cheat River four times, and finally, about one o'clock, came up with the enemy's rear guard and wagons. The Fourteenth Ohio advanced rapidly to the ford, in which wagons were standing, when suddenly the rebel army opened a furious fire on them from the bluff on the opposite side of the river, where they had been concealed, with small arms and two rifled cannon.

Fortunately most of their firing was a little too high. The Fourteenth returned it with spirit. Meanwhile two pieces of the Cleveland artillery came up and opened on the rebels, and the Ninth Indiana advanced to support the Fourteenth Ohio's left, while the Seventh Indiana marched down the river, between the two fires and came in on the rebel's right flank. The rebels then fled in great disorder, leaving their finest piece of artillery.

At the next ford, perhaps a quarter of a mile further on, Gen. Garnett attempted to rally his forces, when the Seventh Indiana came up in hot pursuit, and another brisk little engagement ensued. Gen. Garnett was finally shot dead, when his army fled in wild confusion towards St. George.

The Seventh Indiana pursued them a mile or two further, but our forces were so exhausted with their forced march of twenty miles to-day, with but little rest from yesterday's march, that Gen. Morris refused to let them pursue further.

The results of the whole affair are the capture of the rebel camp at Laurel Hill; the total route of their army; the capture of a large amount of their tents and camp equipage; forty of their baggage wagons; the field camp chest, supposed to contain all their money; two regimental banners, one of them that of the Georgia regiment; fifty or more prisoners, including four Georgia captains and lieutenants, and a large number of Virginia officers; the death of Brig. Gen. Garnett and twenty of his men, and the wounding of a much larger number.

Our loss is wholly in the 14th Ohio regiment: 2 killed—Samuel Mills, of Co. A, and Henry Richeldiffer, of Co. C; 2 fatally wounded—John Kirighanos, of Co. A, by a ball through the chest, and Daniel Mills, of Co. A, by four severe wounds by shell; and about fifteen others wounded, but not fatally.

Our forces are now engaged in burying their dead. Gen. Garnett is lying at headquarters. His body is to be sent to his family at Richmond.

Garnett's army at Laurel Hill numbered about 5,000. It was increased by the rebels routed from Rich Mountain, and diminished by the numerous desertions. Along the line of retreat the woods are filled with deserted rebels, and our men are ordered to stop arresting prisoners, because we cannot take care of them. Three times as many as we hold would have been taken but for this.

There must have been over 4,000 rebels on the bluff commanding our position who opened fire on the fourteenth Ohio, and the distance was little over two hundred yards.

Their artillery was rapidly served, but aimed about two feet too high, cutting off trees at that distance above the heads of our boys. Some of their shells burst near our ranks, doing considerable damage.—Our advance, which alone entered the engagement, numbered hardly 2,000.

It is hoped that Gen. McClellan, or the forces at Rowlesburg, may cut off the retreat of the remainder, and secure the few baggage wagons left. The rebel army was composed mostly of Georgians and eastern Virginians. Col. Ramsay, of the Georgia regiment, succeeds Gen. Garnett in their command. The Georgians had all been moved to Laurel Hill, direct from Pensacola.

GRAFTON, July 15.

Coming through the field of battle of Cheat River yesterday, with Major Gordon, who had charge of the corpse of Gen. Robert S. Garnett, we learned that the rebel army had left the remainder of their baggage train and artillery at a point two miles from St. George. Word was instantly sent back to Gen. Morris, and all is probably now captured.

The rebels are greatly disorganized, and heading for Hardy county. It is hoped that General Hill, now at Oakland, may be able to intercept them.

IN A FIX.—The men in the 3d regiment were paid off Monday, one-third currency and the remainder gold. The boys were troubled because they could not get their $20 gold pieces broken, and felt as bad as though they had not been paid, since they could not spend it. Many of them did a noble act by sending their earnings home to sisters and mothers.—*Fond du Lac Reporter.*

THE NORTHERN FORTS TO BE PUT UPON A WAR FOOTING.—The Champion Citizen learns that Fort Montgomery, at Rouse's Point, Vt., is to be placed on a war footing at once, and that active preparations to that end are in progress. The government probably thinks it well, in view of the "precautionary" increase of British forces in Canada, to take precautionary measure for the protection of the frontier.

The disunionists of Kentucky say they are not for *secession*, but they are for *going with the south.* "Will you have me?" said John to Julia. "No," said she, "I will not have you—but you may have me!"—*Louisville Journal.*

BY TELEGRAPH.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

Last Night's Report.

WASHINGTON, July 16.

HOUSE.—Mr. Bingham, from committee on judiciary, introduced a bill for the suppression of the rebellion.

The President is authorized to call out the militia for this purpose, and their continuance in service is not to extend beyond sixty days after the commencement of the regular session of congress, unless the latter shall otherwise direct.

The militia are to be entitled to the same pay and rations as the regular service.

The bill passed under the operation of the previous question, almost unanimously.

Mr. Blair, from committee on military affairs, reported back the senate bill authorizing the president to accept the services of 500,000 volunteers to aid in the enforcement of the laws, etc., and proposed for it a substitute similar to the bill passed previously, and which allows the President to select major and brigadier generals from the line of the army, to command volunteers; these officers to assume their former places at the expiration of the year. The bill passed.

Mr. Stevens, from committee on ways and means, reported the senate's amendments to the loan bill, which, at their recommendation, were all concurred in.

Mr. Wright introduced a bill authorizing the secretary of the treasury to issue exchange bills to the amount of $500,000,000. Referred to the committee on ways and means.

Mr. Washburne, from committee on commerce, said they were ready to report on the resolution for clearing the sea of pirates and making the blockade more effective, and as there was immediate necessity for its passage, hoped the house would proceed to consider it.

JEFFERSON CITY, July 16.

The detachment from here returned from Tipton at 10 o'clock last night. They surrounded the town and captured eighteen rebels.

Citizens of Pettis county arrived this morning, who say that four hundred secessionists are assembled near Georgetown, with three pieces of artillery. Their numbers are constantly increasing.

CLEVELAND, July 16.

Fourth Wisconsin regiment arrived at 2 P. M. They leave for the east via Dunkirk at 6 P. M. All well. Had a fine reception and refreshments here.

NEW YORK, July 16.

Privateers of the Savannah will be arraigned to-morrow.

A Frenchman, charged with having served the rebels at the siege of Fort Sumter, is in custody.

WASHINGTON, July 16.

A naval militia is to be extemporized to sweep the ocean of privateers and for blockading.

FORT MONROE, July 15.

Russell left here for Washington. He says American camps are worse than those of the Crimea.

Special Despatch to the Chicago Times.

CAIRO, July 16.

You are already advised of the arrival of two hundred horses and mules at Bird's Point. The arrival of two hundred wagons is now expected daily. The exact use these are to be put to is not known. By many it is conjectured that their collection indicates a movement soon in the direction of the rebel camps at Point Pleasant and Pocahontas.

A boy arrived here yesterday from Stoddard county, who says there are about "ten acres" of men in the vicinity of "Negro Wool Swamp," and that among the number he saw hundreds of Indians. He seemed very honest, yet his story was deemed unworthy of attention.

Col. Pitcher, U. S. A., arrived here last evening. He comes for the purpose of swearing the troops into the three years' service.

ST. LOUIS, July 16.

A fourth regiment, under Lieut. Col. Helmer, crossed the Missouri River into Calloway county.

A party of secessionists fired from the bushes, killing the horse of an officer, and escaped.

The soldiers arrested all persons living in the neighborhood.

Six miles above St. Charles, the train carrying Col. Smith's St. Louis Zouaves was fired into.

Privates Sullivan and O'Connell were wounded—one dangerously.

The enemy escaped before the soldiers could attack them.

ST. LOUIS, July 16.

The report that ex-senator Green violated his parole is untrue.

J. W. Tucker, late editor of the State Journal, is making violent secession speeches in the country.

Col. Steifle's 5th regiment reserve corps, arrived from Lexington to-day, and report having captured two hundred kegs of powder, thirty-three muskets, one cannon, a quantity of machinery for boring and a mould for casting cannon, and several other contraband articles.

NEW YORK, July 16.

Gov. Hicks and Gen. Banks had a conference to-day.

A man, while hurrahing for Jeff. Davis, while quietly passing, was knocked senseless by a pistol in the hands of a policeman.

BALTIMORE, July 16.

Gov. Hicks was serenaded to-night. He expressed his unalterable devotion to the Union, and felt more than ever convinced that Maryland's only safety was in the Union.

HARRISBURG, July 16.

Col. Chas. J. Biddle, commanding the reserve force lately encamped at Cumberland, occupied New Creek Bridge on Sunday, by order of Gen. McClellan; Col. Kane, of the same brigade, occupied Piedmont; and Capt. Irwin took his post at New Creek Village.

The enemy precipitately retreated on the approach of the forces. Capt. Taylor pursued and captured a wagon filled with plunder.

On Monday morning the enemy attacked Capt. Irwin's position, but were vigorously repulsed, leaving two dead, and carrying away some wounded.

LOUISVILLE, July 16.

A disturbance was threatened at the Louisville and Nashville Ralroad depot last night in consequence of the seizure of a trunk full of Hardee's Tactics. It was quelled by the presence of armed men, who volunteered to assist in carrying out the orders of Surveyor Cotton.

Captain Trabue shot Capt. C. L. Thomasson, at Camp Jo. Holt, on the Indiana side of the Ohio River, this P. M. The wound was slight. They were both Captains of companies in General Rosseau's Kentucky Brigade, and the difficulty arose from some of Trabue's men going into Thomasson's camp. Trabue was arrested and taken to the Indiana Penitentiary at Jeffersonville.

The Portsmouth (Va.) correspondence of the Richmond Examiner says: "The first rifled cannon was turned out at the navy-yard yesterday, and in a few days they will be able to supply long-range cannon to the Confederacy as fast as wanted."

The Galveston Civilian says that the blockade of that port was rendered complete on the 2d of July by the arrival of the United States steamer South Carolina, Capt. Alden. She had captured the sloops Dart, Shark, Falcon, and two others.

LOUISVILLE, July 16.

A special to the New Orleans Picayune from Fairfax says that, by mistake, on the 4th of July, South Carolina and Virginia detachments had an encounter, killing two and wounding one Virginian.

The Augusta (Ga.) Constitutionalists of the 9th, noticing the visit from ex-Governor Morehead, says that Morehead states that an overwhelming majority of the people of Kentucky are at heart in favor of uniting their destinies with the confederate states, but that the loyal influences wielded by the enemy, and the efficiency of their arms, place Kentucky under temporary restraint.

The Louisville volunteers for the confederate army, who had left for Camp Boone, near the northern line of Tennessee, are returning daily in considerable numbers, dissatisfied with the work assigned them, and disgusted with their fare. A large portion of them say that they do not want to hear anything more about Jeff. Davis and the southern confederacy.

JEFFERSON CITY, July 16.

The mail carrier reports that Maj. Harris, with a force of over 3,000 men, was at Wood Springs, twelve miles beyond Fulton, on the Mexico road, at 11 o'clock this morning.

Col. McNeil arrived at New Bloomfield at noon, and expected to reach Fulton to-night.

The houses along the road were deserted in consequence of groundless fears on the part of the people.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DESPATCHES.

BUFFALO, July 17.

The 4th Wisconsin Regiment unexpectedly arrived here this morning. They were received by Buffalo Tigers and breakfasted. They leave by the Erie road this forenoon.

WASHINGTON, July 16.

Times' despatch.—The army in Virginia to-day took up the line of march for Richmond, via Fairfax and Manassas. The force starting to day is fully 50,000 strong; the number reaching by actual count about 53,000.

Col. Burnside's Brigade went over Long Bridge at 4 o'clock this afternoon and struck the road for Fairfax Court House. The 27th New York, Col. Slocum, went over at 5 o'clock and also took the Fairfax route.

Herald's despatch.—The discovery of a pass to enter the Rappahannock river on the person of a man recently found at Richmond, and the effort of the rebels to create a difficulty in consequence between the British minister and our government, has, on investigation, turned out to be a very shrewd rebel trick, to involve our government in a quarrel with England.

Tribune's Dispatch.—The columns this P. M. probably moved only to advanced pickets.

To-morrow morning at early dawn they will pass forward upon the enemy.

The first fighting will probably take place at Fairfax Court House, where there are 9 rebel regiments.

It is believed that the design of our generals is to avoid Mannasses Junction, and if possible, circumvent it.

A positive intention is, however, no delays, but to push vigorously south, and fight their way to Richmond.

It is also supposed that a movement to this important point will not be direct, but by flank, and that our columns will pass around the city and approach it from the south, after cutting off all communications.

The report that the Hon. Jos. Holt of Kentucky, will be appointed Justice of Supreme Court is without foundation. There will probably be no new appointments until the court has been organized.

Information received here to-day states that the rebel forces at Occaquin, Dumfries and one or two other points on the Potomoc, have been removed to Manassas Junction.

Reports from Arizonia and New Mexico report the secession feeling in those territories very strong, the inhabitants being mainly settlers from Texas. It will be necessary to send U. S. troops to Fort Bliss to suppress them.

From intelligence received here last night by mail from Vera Cruz, it is stated and believed that J. T. Pickett, late consul of United States to Vera Cruz, was recently in this city—having gone up to the Mexican capital as diplomatic agent of the rebels, with the hope of circumventing Minister Corwin in his negotiations.

WASHINGTON, July 16.

The army has advices that Gen. McDowell left at 3:30 p. m. to go *somewhere.*

The first brigade of the 5th division is commanded by Brig. Gen. Lewis.

This forward movement had a wonderful effect upon the sick list. It has nearly cleared out the hospitals.

World's Correspondence.—All militia of eastern Virginia are ordered to march for Staunton.

The Times says Mr. Schenck, of Indiana 11th congressional district, has been appointed aid on Gen. Fremont's staff and accepted the appointment.

AFTERNOON DESPATCHES.

WASHINGTON, July 17.

HOUSE.—Mr. Henry May appeared and was qualified by taking the oath to support the constitution.

Mr. Holman introduced a resolution authorising the select committee heretofore appointed, to examine into war department contracts to be made, and that committee have meetings during recess.

WASHINGTON, July 17.

Special to Commercial.—A message to the war department says Fairfax Court House was occupied at sunrise. The rebels having previously abandoned the place.

CINCINNATI, July 17.

On Friday night a detachment of 3 companies of Col. Woodruff's 2d Kentucky regiment attacked 600 rebels between Mad River and Barbourville, on the Kanawha river, completely routing them. Ten or twelve rebels killed and a number wounded. The Kentuckians had 2 killed.

Gen. Cox's brigade was rapidly moving up the Kanawha.

ST. LOUIS, July 17.

Mr. Hayard, superintendent of Hannibal & St. Joseph railroad, just from Hannibal, received the following dispatch previous to leaving that place:—

HUDSON, July 16.

Eight hundred federal troops came up ahead of the passenger train this a. m. as far as Milleville, 50 miles above St. Charles, on the north Missouri railroad, where the tracks were torn up, and troops fired into. Engagement resulted in 7 rebels killed, and several taken prisoners.

One man caught with a gun in his hands was immediately hung; another in attempting to escape was riddled with balls.

Fighting still continued when the passenger train passed up.

Federals lost 3 killed and 7 wounded.—Thirty horses captured: Strength of rebels unknown.

FORTRESS MONROE, July 16.

The 3rd and 4th Massachusetts regiments, whose three months' time is up, leave for Boston at once.

Brigadier General Pierce will return home.

Several companies went out from Newport News last night to suppress, if possible, a body of light horse, who have for some time hovered in the vicinity. They had not returned at the departure of the morning boat from Newport News.

PHILADELPHIA, July 17.

A gentleman of this city, who left Richmond on the 9th inst., and escaped via Tennessee, arrived here this morning. He says when he left there were about 10,000 troops in Richmond and several fortified camps commanding the approaches, with heavy batteries—one on Acquia Creek road of heavy guns. There were three regiments at Hoffing Grove out of the city, and two regiments of flying artillery near Rocket. Regiment after regiment arriving via Nashville. Five regiments with a small baggage train left Richmonn on the 8th to reinforce Gen. Johnston. He estimates that there are not less than 60,000 men under Gen. Beauregard at and around Manassas Junction, and reinforcements of militia are being forwarded daily. It is reported, but discredited, that there were 10,000 at Acquia Creek.

Andersons & Tredegar have turned out several cannon, also a large number of gun carriages, shot and shell per week.

Sloat's former sewing machine factory has been turned into an armory, and was engaged in manufacturing guns, cavalry and artillery equipage, etc. There was a great scarcity of leather and oil cloth, but some establishment had recently received a supply of leather from Kentucky.

Three barrels of oil had just been received at Richmond bearing mark of Philadelphia.

A man named DeBow has been erecting a percussion cap machine which turns out 300,000 caps daily. He is also engaged in building three more. He experiences difficulty in obtaining detonating powder. A man from New Orleans was engaged making it.

DeBow is also constructing telegragh instruments, and recently constructed an infernal machine. He has gone to Norfolk to give it a test.

Steamer Yorktown has been mounted with eight 64-pounders at Richmond. The estimated number of men at Yorktown was 15,000 and from 10,000 to 20,000 at Norfolk.

Troops from Pensacola at Richmond generally concur in the impossibility of taking Pickens. It is said they were induced to come north from representations that Fort Monroe would fall an easy prey.

Provisions are at present plenty in Richmond.

WASHINGTON, July 17.

The Republican this morning says that the general movement was in the direction of Fairfax Court House, which is no great distance from the left of Gen. McDowell's, though it is near 14 miles from the extreme right. The army will halt for night this side of Fairfax Court House.

The enemy will probably take occasion to evacuate to-night and resume their march in the morning.

The Intelligencer says an officer just arrived here last night direct from Martinsburg yesterday morning. He says General Johnson broke up his camp at Bunker Hill on Monday, and commenced retreat of his whole army towards Winchester.

Gen. Patterson, with his entire force immediately went in pursuit, and was about 11 miles in the rear of Johnson.

Correspondence of the Cincinnati Commercial.

CAMP BUCKHANNON, July 6.

A CONTRABAND COOK WHO DID'NT KNOW HIS MASTER.—The boys are fond of chickens—not particular whether they are spring chickens, or even chickens, so they come under the general denomination "poultry." Without license they entered sundry barnyards, and the camps are now sprinkled with feathers enough to stuff the bedticks of a large and respectable family. One farmer complained that a pair of sheep had mysteriously disappeared from his fold.—The fleece was traced to the camp of a Buckeye regiment, and it is presumed the flesh went the way of of the fowls. A stout male "contraband" suddenly disappeared from his master in an inexplicable sort of a way. He was afterwards discovered harmlessly pursuing the vocation of cook in the camp of the 19th Ohio. Sambo was suddenly confronted with his master, in the presence of Gen. McClellan. Quoth our legal military Lt. Col. Key, "What's your name, boy?" "Pompey Johnson, sah?" reglied Sambo. "Where are you from?" continued the Colonel. "Johnstown, Cumberland county, state of Ohio," said the nigger with sublime audacity. "Do you know that man?" asked the Colonel, designating Sambo's master. The darkey eyed his master coolly from head to foot, as if he was preparing to swear to his inches, and without winking responded—"No sah! dun 'no' him. Nebber seed him 'fore. Stranga to me, sah?" "Why, you rascal," interposed his master, "I raised you—bought you when you were nine years old; every body in town knows you're my nigger."—"Dun 'no' you, sah! Stranga to me, sah! I'se free cullud pusson, sah! Cum from 'hio, sah, wid de soldiers." The neighbors identified Pompey as the claimant's chattel, and he was remanded to servitude, when he suddenly regained his consciousness and retired obediently. He had been captured from his master, a secessionist, by some of the lads of the 19th who desired him for a cook, and had instructed him to play the part he assumed. The darkey, however, mistook the name of the county he was to hail from, substituting Cumberland for Trumbull.]

AN OLD SOLDIER KILLED ON THE CARS.—On Saturday afternoon as the wood train on the Milwaukee & Prairie du Chien R. R. was coming from Milton, a man got aboard without leave of the conductor, and took a seat on the platform car, the most of the cars being loaded with old iron rails. When about four miles west of Waukesha a stake came out, letting the fore end of a T rail down on to the ties, striking with such force as to send it through the end boards put up at the rear end of the car, hitting this man on the back part of his head and killing him instantly. He was knocked off the cars and the rear car passed over him, crushing both legs. The body was taken to Waukesha where it was examined by the authorities. He was buried at Waukesha on Sunday morning. He was a man about forty years old, tall and slim built, about six feet in height, and would weigh about 160 pounds, light sandy hair, with whiskers clear around the chin, no mustaches. He told the boys on the train that he had been in the regular army, among the Indians in the west for the last twenty years, and had got dismissed on account of having the rheumatism, and was now on his way to Buffalo.—*News this morning.*

Peter Van Buskirk, of Washington, is 99 years old. He was on the revolutionary pension list as a private. As such he has received $5 a month. But he claimed to have been assistant-forage master, and he recently found the evidence to establish his claim: He is therefore awarded arrearages to the amount of $16,200.—*Albany Evening Journal.*

WOUNDED.—In the list of wounded at Williamsport, is the name of William A. Mathews, formerly of Oconto, but now of the First Wisconsin Regiment. It will be remembered that he wrote the article from the camp which was published in the Pioneer two weeks ago. The account does not say that he was dangerously wounded, and we hope to hear of him being up and on duty before a great while. He's a brave soldier.—*Oconto Pioneer.*

Important to Farmers!

WOODRUFF'S
Patent Portable
BAROMETER.

Cheapness, Accuracy, Simplicity, Durability, Portability and Beauty of Finish Combined.

INVENTED BY
L. WOODRUFF,
for many years Practical Meteorologist of the
SMITHSONIAN INSTITUTE.

It Tells you when to expect Rain!
It Tells you when to expect Fair Weather!
It Tells you when to expect Wind!

It tells you your height above the level of the sea, or as compared with your neighbors!

Its use will add five per cent to the value of your crops by enabling you to secure them uninjured by storms!

In England and on the Continent, where art and science, as applied in aid of labor, are in some branches at least far ahead of our own country, the Barometer is to be found in the hands of almost every husbandman. Its convenience and utility are just as well recognized as that of the clock.

Experience shows that wherever the Barometer has has been introduced in this country, it is equally satisfactory. In fact it is a necessity in our proverbially variable climate, for in Wisconsin alone millions of bushels of grain have been lost through the lack of some reliable means of foretelling the weather. Depending as it does upon the well known natural law that no atmospheric change can occur without destroying its equilibrium, thus producing a change in its density and weight, which, by its action upon the sensitive surface of the mercury, is infallibly indicated by the rise or fall of the column, it will at once be seen that when properly constructed, the slightest change in the weather will be preceded by a change in the Barometer.

While to the farmer it is indispensable, oftentimes saving many times its cost in a single day, to the painter, builder, master carpenter, brick-moulder, and all other out-door workmen and mechanics, it is of scarcely less importance; and in short, there is no class in community to whom it would not sooner or later save many times its expense. Schools should not consider their apparatus complete without it.

We claim for this instrument the following merits in preference to all other instruments of the kind:

1st. Its cheapness. Until recently the Barometer has been so difficult of construction and so costly as to place it beyond the reach of all but the wealthy; but this instrument is sold so low as to be within the means of all, being by far the cheapest reliable Barometer extant.

2d. Its portability. A great difficulty in obtaining these instruments heretofore has been that they could not be transported, its extreme delicacy of construction rendering it necessary to be made and adjusted in the place where used; but by a simple arrangement this instrument can be rendered in a moment perfectly portable, so that it can be subject to the roughest usage without injury.

3d. Its durability. No wood or leather is used about the cistern, which is wholly of cast iron, forming the most durable instrument of the kind possible.

4th. It is a Mercurial Cistern Barometer, which is the only form endorsed by the highest scientific authority. The ordinary cheap Barometers and all Aneroid or dial-faced Barometers have been condemned as unreliable by the U. S. Coast Survey, and Smithsonian Institute, Washington.

5th. Its simplicity. While it combines with all the real improvements that have been given to the instrument for two centuries, other and valuable improvements possessed by no other, it is the simplest possible form of Barometer.

6th. It is not affected by the change of temperature as are the Union and other Barometers, (thus rendering it necessary to adjust them every time an observation is taken, and then it is only an approximate one.) but is acted upon solely by the different degrees of density of weight of the air, as affected by various atmospheric phenomena.

7th. Its thorough workmanship and beautiful finish render it at once highly ornamental, accurate and durable, while the addition of a Themometer Index, and Vernier scale upon a brass plate, render it by far the most complete instrument of the kind ever offered to the public.

Premiums have been awarded it by the New York, Michigan and U. S. Agricultural Societies, over all competitors.

Prof. J. C. Holmes, State Agricultural College, Lansing, Mich., says:—"The Barometer you made for me has proved to be an excellent instrument. It is perfectly accurate. I would recommend a trial of one to every farmer."

Says Hon. H. Greeley:—"There is no article so much needed among farmers as a good Barometer. You ought to sell ten thousand of them this present season in the state of New York alone. The fact that times are hard and money scarce, is only additional reason why farmers should purchase them as an article of economy in saving their crops from damage and waste."

The following scientific gentlemen, with many others, have permitted the use of their names as references:

GEO. P. WILLIAMS, LL. D., Prof. Natural Philosophy and Mathematics, University of Michigan; S. H. DOUGLASS, A. M., M. D., Prof. of Chemistry, University of Michigan; E. S. CARR, M. D., Prof. of Natural Science, Wisconsin State University.

GALENA AND CHICAGO UNION RAILROAD.—The night train on this road has been withdrawn, and the day train changed to leaving at 9:10 A. M., and arriving at 4:20 P. M.

THE EXCURSION.—The St. Paul excursionists came in this forenoon on the Chicago and Northwestern Railway, filling five passenger cars, and having two baggage cars assigned to their use. At Milton they were "switched" to the Milwaukee and Prairie du Chien road, and will reach the Mississippi this evening.

A car devoted to the Janesville excursionists, numbering between 20 and 30, preceded the train to Milton, and was there attached to the train.

The excursion will undoubtedly be a very pleasant one, and the excursionists will return highly satisfied with the trip.

CUSTOM FLOURING.—By reference to our advertising columns, it will be seen that the Messrs. Clark have rented the custom mill known as the Bower City Mill, and are prepared to do gristing on short notice and in the best manner.

They are practical and good millers, understanding their business, and will give their best efforts to satisfy their customers.

☞ The board of supervisors of Dane county has made liberal provisions for the families of volunteers.

MORE EMIGRANTS.—The Chicago Tribune of Monday says—"Yesterday seven hundred Norwegians arrived here via the Michigan Central railroad from Quebec, bound for Minnesota, Wisconsin and Iowa. They left by the Galena & Chicago Union railroad. This is the second similar party within a week, one having passed through this city last Friday. There is another expected to arrive here to-day."

☞ The board of supervisors of Kenosha county has levied a tax of $1,000 on that county, for the benefit of the families of volunteers to the war.

A COMPLIMENT TO A JANESVILLE CLERGYMAN.—The Rev. Mr. Goodspeed, of this city, has been selected to deliver the oration before the alumni of the Rochester (N. Y.) University in 1861. Mr. G. is a graduate of that institution.

SUPREME COURT—July 16.—State ex rel. Attorney General vs. Isaac E. Messmore.—Justice Paine. Motion to quash information and writ denied.

First Circuit.—Nos. 5, 6 and 7 argued.

ACCIDENT.—This morning, while raising some joists to the 4th story of Jackman & Smith's new building, a workman named Wm. Albrick was severely injured. He had passed a noose around the end of the joists, but had not sufficiently tightened it, and it slipped while raising the joists. One of them struck him on the shoulder breaking the blade; he also suffered several other external injuries, and was injured internally, though to what extent from the latter cannot now be told.

CAMP MATTERS.—Last Saturday evening about eighteen hundred of the soldiers in Camp Randall bathed in Fourth Lake.

Friday evening a prayer meeting in the open air was held, which was attended by about five hundred soldiers, and some dozen or two ladies from town.

A lodge of good templars has been established, and three hundred united with it.

The members of the bar of Dane county and the citizens of Madison generally, have raised a subscription and purchased a fine stallion for Lieut. Col. Atwood. The price paid for it was $300.

The health of the regiments was excellent—only one man being dangerously ill. He belongs to the Anderson Guard, sixth regiment, and is down with congestion of the lungs.

The Chicago Tribune says, that for a single place in the Chicago postoffice, the vacancy of which was made more than usually public, there were within the week succeeding, nearly *five hundred* applicants, and this well indicates the pressure for places in that office.

The Richmond papers make great boast that the name of the rebel who killed Capt. Ward, on board of the Freeborn, at Mathas Point, was James Shreshly, of Stafford, Va. He was armed with a Sharp's rifle, and was a little nearer to the Freeborn than the main body of the soldiers. He took deliberate aim and accomplished his murderous design.

ADJUTANT OF THE 5TH REGIMENT.—The Madison Journal says: T. S. West, lieutenant of company K, of the 5th regiment, has received the appointment of adjutant of said regiment. This is a good selection. Mr. West is a well-drilled officer—is attentive to his duties, and executes them with promptness and fidelity. We congratulate, both the regiment and Mr. West upon this promotion. The regiment has secured a good officer and Mr. West a good position.

NEW MUSIC.—"Mother, oh Sing of Heaven," is the title of a new piece of music just issued by Root & Cady, of Chicago. It is pronounced good by competent judges.

RECRUITING FOR THE NAVY.—Lieut. Stevens, U. S. N., a short time since opened a naval recruiting station in Chicago.

The experiment was highly successful, and the station will probably be continued.

It is confirmed that Mr. Charles Dickens, the great novelist, and his wife, have reconciled the unhappy differences that had caused their separation, and are again living together.

ALL SORTS OF PARAGRAPHS.

The last news from Europe represents the condition of the Pope as critical. Indeed, it is stated that the question of his successor is already freely canvassed in the College of Cardinals. An abscess in the leg has affected his entire system; and his medical advisers give but little encouragement that he will recover.

The first order issued by Speaker Grow, upon taking possession of the splendid room assigned to him, was that the doorkeeper should remove the marble bust of the traitor, Ex-Speaker Orr, from the bracket where it was placed by the consent of Orr, and that the fine marble bust of John Quincy Adams, that formerly occupied a niche in the old Representative' Hall, be substituted. The order was executed to-day. The original subscribers to Orr's bust can undoubtedly have the same by calling for it, the present owners having no use for it.

GEN. HARNEY.—This gentleman has been in St. Louis the past two months. The St. Louis News says there is a strong probability of his being shortly assigned to an important command in active service.

The entire force now under Gen. McClellan's command in Western Virginia, amounts to about thirty-four thousand men, consisting of nineteen Ohio regiments, nine Indiana regiments, three Virginia regiments, two Kentucky regiments, the Chicago Sturges Rifle Corps (being Gen. McClellan's body guard,) Capt. Barker's and Capt. Sceaumbeck's Chicago Dragoons, and the Cincinnati Rover Dragoons, two companies of regular artillery, the Coldwater (Mich.) artillery, and one company of flying artillery, besides one other troop of horse.

The residents of Nantucket (Mass.) were much surprised on Saturday last, by the appearance of what seemed a light snow storm, but which proved to be the falling of a dry, whitish substance, resembling down. It continued several hours, and so resembled a snow storm that the children reported to the teachers that it was snowing.

The earthquake mentioned in our dispatches from Canada on Friday, was distinctly felt in the vicinity of Rochester, N. Y., and also at Syracuse.

Hon. John A. Gurley, member of congress from Cincinnati, will take the field as aid-de-camp to Gen. Fremont, at the close of the present session of congress.

The delivery of a slave to his master by Col. Cowdin of the first Massachusetts regiment at Washington, has created considerable excitement among the troops. It is alleged that the master had no papers by which he could legally claim him.

A cold rain storm prevailed in western New York on the 2d of July, from the effects of which a large number of sheep which had recently been sheared, died.—Some farmers lost ten per cent. of their flocks.

The town of Linsayville, in Canada West, had a terrible visitation by fire on the 5th inst. The heart of the town was destroyed. The losses amount to about $400,000, and its wealthiest men are ruined.

There is difficulty in keeping the Erie canal supplied with water. East of Rochester and west of Albion, there are many boats which are unable to move.

The "hard times," which is pressing hard on most all the eastern papers just now, has forced the Boston Atlas out of existence.

Capt. Bondebamer, of Indiana, is organizing a company of printers in Indiana for the war.

One of the New York regiments contains thirty school-masters. It ought to be able to "lick" the southern boys.

Mr. Lawrence Geoghegan, of Galway, gun-maker, has produced a new blasting powder made from tanner's waste bark, nitrate of soda and sulphur, which is said to be much superior in efficiency to the blasting powder in general use, while it costs not more than half as much.

NO BUSINESS.—The marine lists of Charleston, Savannah, Mobile and New Orleans all now present the same appearance. The various journals in those cities keep the following lines standing under their marine heads: "No clearances yesterday." "No arrivals yesterday."

TERRIBLE, IF TRUE.—F. O. Thorp, of Washington Co., informs us, says the West Bend Post, that he has just received a letter from his father, who resides in Kenosha county, stating that he has received a letter written by one of a company which left there last spring, for California, and in which he states that the whole company, with the exception of himself, were murdered by the Indians, when only a few miles beyond Salt Lake City. It appears towards the close of the day on which this terrible massacre was committed, the surviving member alone was sent on ahead of the main body, for the purpose of securing suitable camping grounds, and that upon his return he found the whole party weltering in their blood, and their teams and provisions missing. Mr. Nathan McCommins, a son-in-law of Mr. Thorp, with his wife, were among those killed. They had been married but a few short weeks previous to their departure for the land of gold, and should this report prove correct (which God forbid,) it will be a terrible blow to their afflicted friends.

Parson Brownlow denies emphatically, in his paper of the 6th, that the secessionists are gaining ground in East Tennessee. He says:

We notify them that the ballot-box, on the first Thursday in August, will again convict them of lying. If they have the recruits they boast of, let them elect members of congress, and to the legislature, from East Tennessee. We give them notice that the Union men intend to elect, and that they will do it fairly, by majorities, and through the ballot-box.

A Washington dispatch, on Saturday, to the New York Commercial Advertiser, says:

Col. Lamon has resigned the marshalship of the District of Columbia, and has gone to Virginia to take command of the regiment that he has raised there in aid of the cause of the Union. Names are already mentioned for the succession to the marshalsbip, but they are, I imagine, merely conjectural, and therefore I do not repeat them.

DRYING THE COMMON RED CURRANT.—We copy the following method from the last number of the Horticulturist. Many of our readers will find it just in time to give it a fair trial. The editor of the Horticulturist having examined the currant prepared in this way, highly commends it:

The currants should be quite ripe when gathered, with the stems attached, and washed or rinsed effectually and drained off. Then stem them and wash them thoroughly, and to each pound of currants add a quarter of a pound of good Havana sugar; then place them in a preserving kettle over a fire until they come to a *scald heat*, when they are turned out into white earthern dishes, and exposed to the action of the sun until, by evaporation, they become hardened on the upper side. Then they are turned over, and there remain until they become so on the other side, and so alternate until they become a sort of leathery texture, when they are put away in earthen jars or boxes until wanted for use. Care must be taken to keep them from the dews of night and rains during the process of drying; finally, the utmost cleanliness should be observed from first to last.

When used enough hot water is required to disolve them or render them to any consistency suitable for tarts, jelly, &c. At the same time, more sugar is required to make them quite palatable, which must of course be governed by taste. Currants in this way have kept well with us for three years, and the presumption is, that they will keep for a longer time if well cared for.

MRS. GEO. H. HITE.

A SPY OUTWITTED.—The circumstances connected with the arrest of R. H. Alvery, a Maryland secessionist, and another spy with whom he was in communication, are curious and interesting:

"One night last week the picket guard stopped a man on the road to Hagerstown, who answered the guard's inquiries by saying that he wished to see Gen. Patterson, but when about to be introduced at headquarters, wished to evade the interview.—He was instantly seized and searched, and dispatches were found upon him from the rebel General Johnston to Mr. Alvery. McMullen, one of Gen. Patterson's aids, forthwith stripped the rebel spy, dressed one of his own men in the rebel's clothes, gave him Johnston's letter, and started him off to see Mr. Alvery. The dispatches, however, had been nicely opened, copies taken, and then resealed. McMullen's man was received by Alvery, who thus fell into the trap most beautifully. Alvery unfolded all his plans, and gave him written answers to Johnston's dispatches. The supposed friend conveyed conveyed Alvery's documents to General Patterson. The arrest took place quietly the next day. When Alvery was confronted with the documents and the indisputable evidence of his treachery, it is said he was completely unmanned, and sunk under the burden of his guilt."

PURSUIT OF THE PRIVATEER JEFF. DAVIS.—Immediately upon the receipt of the news relative to the seizure of vessels by the privateer Jeff Davis, the government at Washington ordered a fleet of revenue cutters and gunboats to be despatched from this port in quest of the daring privateer. The command of the fleet was confided to Capt. Howard, and the cutters Jackson, Crawford and Varina went promptly to sea, in tow of the steamboat Mercury. The Henrietta, Lieut. J. G. Bennett, Jr., now lying off the battery, will start in pursuit of the pirate to-day, provided her guns arrive in time. The gunboat Iroquois, one of the fastest in the navy, will also start on the same errand to-day, so we shall have five armed vessels in pursuit of the Jeff Davis before many hours. The prospect of encountering and capturing the piratical craft is very encouraging. The Jeff Davis was formerly the slaver Echo.—*N. Y. Herald, 13th.*

A REGIMENT OF WARRIORS.—We learn that E. S. Ingalls, and John Kitson, Esqs., have written to the secretary of war, tendering to the government the services of a regiment of Chippewa Indians, to consist of not less than five hundred, and not exceeding one thousand. They offer to the government, if the regiment is accepted, to have them in the field, armed and equipped, with no expense to the government, except transportation and food, in six weeks from the time orders are received.

Judge Ingalls has also written to the secretary, in case the above offer is not accepted, inquiring if a company of "pinery boys" as riflemen would be received—the company to be raised on the Menomonee. If the first offer is accepted, we think that an excellent regiment could be placed in the field; and if the last, there would be nothing in the service much superior to the Menomonee river boys.—*Oconto Pioneer.*

Mr. Bonner, of the Ledger, presented Mr. Everett, on the 4th of July, with a check for $1,000, to be given to the families of the Massachusetts volunteers. Mr. Everett wished to divde the proceds of his oration in this city between New York and Massachusetts, but Mr. Bonner persuaded him to give all to the families of volunteers here, and in return for which he presented Mr. Everett with the sum just mentioned.—*World.*

To the Land Owners of Janesville.

Being about to leave for my post at Galway, Ireland, if those citizens having cheap lands for sale in this state, will furnish me with particulars, of the lowest price, terms of payment, quantity, quality, location, &c., I will most probably be enabled to find Irish purchasers, to whom my extensive knowledge of this country and my having written so copiously on it, enables me to give valuable information, and thus promote the best interests of all parties concerned. As for salubrity of climate and adaptation for agriculture, I think Wisconsin superior to any other western state, and my numerous friends here may rest assured that their beautiful "Bower City of the West," with its many educational and business facilities shall not be overlooked or forgotten. WM. B. WEST, American Consul.

COMMERCIAL.

Janesville Wholesale Market.

Reported for the Janesville Gazette, BY

BUMP & GRAY.

GRAIN AND PRODUCE DEALERS.

JANESVILLE, JULY 17, 1861.

The wheat market was considerably firmer to-day, which is owing to the recent favorable advices from foreign markets. Millers seem anxious for choice samples at 62@66c, and shippers took common to fair quality at 50@60c. About 1000 bushels changed hands at the above figures. Receipts of coarse grains continue very light, not enough coming forward to supply home demand. We quote corn firm at 16@18c per 60 lbs shelled and 15@18c per 72 lbs ear, and oats at 14@15c per bushel. No change in other produce.

We make up prices as follows:

WHEAT—good to choice milling spring 62a66, currency; fair to good dry shipping 59a60; rejected 30a40. The above figures are for currency, a deduction of 5 and 8c per bushel is made payable in gold.

CORN—16a18 per 60 lbs. shelled, and 14a16c per 72 lbs., ear.

OATS—good local and shipping demand at 14a15.

RYE—quiet at 20a25c per 60 lbs.

BARLEY—dull sale at 15a25c per 50 lbs., common to good quality.

TIMOTHY SEED—dull at 1,40a1,75 per 45 lbs.

POTATOES—plenty and very dull at 10a15c. per

BUTTER—plenty at 10a12½c fair to choice roll.

EGGS—plenty and dull at 6c per dozen.

WOOL—ranges at 15a27c for common to choice fair clean clips.

HIDES—Green, 2½a3; Dry, 5a7.

FLOUR—spring at retail 2,25, per 100 lbs.

POULTRY—dressed turkeys, 6½a7; chickens, 5a6

SHEEP PELTS—range from 50c@90 each.

GREAT ARRIVAL

OF

MERCHANDIZE

AT

McKEY & BRO'S.

THIS is the third arrival of goods received this Spring and Summer by our house. The business we have done since the 1st day of March!

HAS DOUBLED

that of former years, for the same period; allowing to the fact that we purchase our goods for nett cash. The stock now coming to hand was purchased at the

Greatest Sacrifice,

less than half the cost of importation, by E. McKey, who has been east for the past two months. We have also a resident buyer in New York city, exclusively for the purpose of picking up the

GREATEST BARGAINS

in merchandize.

The immense rush to our house recently, is sufficient evidence in itself that we labor for the

Benefit of the People.

We still continue to deal out to the community those great and incomparable bargains; for instance, we have in stock and shall continue to sell as usual, notwithstanding the great advance on Cotton Goods,

50,000 Yards of the Best Prints

in the United States, consisting of

MERRIMACK, COCHECO, PHILLIP ALLEN'S, SPRAGUES

and every other good brand in the market, at 10 cents per yard, worth 1 shilling to-day in New York, Chicago or Milwaukee. Also,

20,000 Yds Full Madder Prints

at 8 cents, or 12½ yards for one dollar.

Received this day 50 Bales of

Sheetings, Ticks, Shirtings, Denims, &c., &c.

Anticipating an advance in Cotton Goods, we were induced to invest very largely in the article, enabling us to sell at our usual prices.

300 PIECES BEREGES

of all colors for dresses, to which we call attention. We will sell 12 yards of Beregs for 75 cents; just the article for the season; only think, 6¼ cents per yard for Bereges.

175 Pieces Finest Berege DeLaine

in the market, at 20 cents per yard—all new styles—got up for this month expressly. The usual quantity of 1 shilling goods on hand. Please read the annexed attentively. We have this day received 4 cases of French and English

Mulls and Organdies,

cost of importation 56 cents, intended for the southern trade exclusively, and now offered by our house at 25 cents per yard. The patterns are original, and the first time ever offered in this city. About

10,000 Yards of Lawns

on hand. We offer 10 yards of fast colored Lawn for $1.

OUR STOCK OF

Dress Silks

is much larger than we have ever had at this season of the year. We offer this day a splendid heavy silk at

FIFTY CENTS, WORTH ONE DOLLAR.

We are now opening a large lot of

FRENCH PRINTS

full yard wide, at 2 shillings per yard, never sold by us less than 3 shillings.

We have now open and ready for inspection between 3000 and 5000

SHAWLS AND CLOAKS,

consisting of Burnous, Shawlettes, Arabs and other styles at a great reduction from former prices.

Our stock of

TRAVELING DRESS GOODS

is now complete, consisting of the following: Robes De Montijo, Erminettes, Paris Poplins, Lustres, Mozambique, Mottled Modena, Milanos, Toile De Napies, Stella and Lucina Seraphines, French Organdies, Lawns, Figured Brilliants, French Calico, English and French Bereges and many other styles not mentioned.

All of the above have been purchased within the past week.

In Carpets, Oil Cloths and House Furnishing GOODS

we have a full and complete assortment.

It is now conceded that McKey & Bro.'s Clothing House is the place to get

Clothing, Hats, Caps, &c., &c.

Our retail stock this day is larger than many Jobbing Houses in New York city.

AN IMMENSE STOCK OF

Boots and Shoes

on hand as usual, cheap.

Our Wholesale Trade has been large, much beyond our expectations, so much so, that we intend adding a large space for that department alone, to meet the wants of the coming

Fall Trade.

We purchase for cash and can afford to undersell Western Houses who buy on credit and sell on the same terms, our business being done exclusively for cash.

In conclusion we would say that we never had a more

since our commencement in business in this city, and were never more desirous of

REDUCING IT,

thereby offering to the public the

GREATEST BARGAINS

in the annals of merchandize.

Insurance against loss or damage by fire, on Dwellings, Furniture, Stores, Warehouses, Merchandise, Mills, Manufactories, and most other kinds of property, can be effected in this company upon as favorable terms as the nature of the risks and security of policy-holders will admit.

The above is the oldest company doing business in this state, and with peculiar propriety has been denominated "The Old Hartford." As an indemnity to the insured it offers to a solid million of assets well invested; and if anything were needed to commend it to the public for liberal patronage, we might offer its history of success in business and honorable dealing with its patrons, for over half a century, as amply sufficient for the purpose.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors*: They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty*. All losses promptly adjusted and paid.

New York Life Insurance Company,

CASH CAPITAL OVER $1,900,000

all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

Cephalic Pills CURE Sick Headache! CURE Nervous Headache CURE All kinds of Headache.

By the use of these pills the periodic attacks of *Nervous or Sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.

They seldom fail in removing *Nausea* and *Headache* to which females are so subject.

They act gently upon the bowels,—removing *Costiveness*.

For *Literary Men, Students*, delicate females, and all persons of *sedentary habits*, they are valuable as a *Laxative*, improving the *appetite*, giving *tone* and *vigor* to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the *nervous* system or from a deranged state of the *stomach*.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, *and the absence of any disagreeable taste renders it easy to administer them to children.*

They have been tested in more than a thousand cases, with entire success.

From the Democrat, St. Cloud, Minn.

If you are, or have been, troubled with the headache, send for a box, (Cephalic Pills,) so that you may have them in case of an attack.

SUBJECTS OF PATENTS.

"INVENTORS are public benefactors. To be liberal in their protection, is only to be just towards the rights of property, and tends to increase the public wealth and hastens the progress of practical improvements and of science. * * * The settled doctrine of the courts, now, under the light of large experience, is, to incline to constructions most favorable to patents."—*Extract from opinion of U. S. Court in a late Patent Case.*

Three-fifths of the earth's surface is covered with water. Vast sums of money and the best mechanical and engineering skill has, for ages, been employed to perfect machinery to bring this universal and indispensable element into convenient use.

May's Patents.

Double and Single Acting Pumps.

☞ For any depth of mining shafts and wells, *open or drilled*, to 500 feet.

☞ No suction pipes, no packing, no bolts, no pumping rods.

☞ Are composed of *two metalic cylinders and two brass valves*, and *wrought-iron* conducting pipe.

☞ Are operated by a wrought-iron lever, and by means of a compensating balance device, they work very easy by hand, wind mill or other power, at whatever depth, and work without noise.

☞ They *cannot freeze*.

Save Repairs, Vexation and Expense!!!

☞ Those longest in use (about 2 years) need no repairs and exhibit no perceptible wear, and possess valuable qualities unknown in any other pumps.

"Blow winds and crack your cheeks! rage! blow!"
—*King Lear.*

The winds are found to be the *Cheapest Motor* in existence and highly serviceable for many mechanical purposes, as pumping, sawing, turning, grinding, &c., &c.

WIND ENGINES, OR MILLS,

LATEST IMPROVEMENTS,

May's Patents.

☞ These ENGINES are perfectly *self-regulating* and under easy control, *independent of their self-governing qualities*.

☞ They are STRONG and DURABLE,

☞ No pains or expense has been spaired to *simplify* and *perfect* both *pumps and engines* to make them UNRIVALLED in quality, and ECONOMICAL in price.

☞ Every article, whether *Pump or Engine*, WARRANTED.

☞ Call and examine thoroughly before buying.

From the favorable opinions of Agriculturalists and others using these Engines and Pumps, together and separate, the following are selected:

Pumps, Without Engine,

In a half hour at ordinary pumping speed, I supply my stock of from forty to fifty head of cattle and horses, with one of May's Patent Pumps. Well 70 feet deep, last 30 feet drilled. I can find no fault with this pump, and use it in place of another kind that was very often out of repair. Being composed of few and streng places, and built on scientific principles, I think they must be very durable. R. W. SCHENCK.

Bradford, Rock county, Wis., January 29th, 1861.

I supply with water 600 sheep, some 60 head of cattle and 10 head of horses, with May's Patent Pump. Its *great strength*, apparent durability and above all the great amount of water it raises in a short time, and its easy working, gives it with me a decided preference over any other pump in the market.

C. M. CLARK.

Whitewater, Walworth Co., Wis., Jan. 31st, 1861.

Since the 1st of October last we have been using one of May's Patent Pumps, and it gives us entire satisfaction. Our well is 126 feet deep and the pump is worked by horse power or by hand. In addition to pumping water for stock and farm purposes, we use large quantities for our Brewery. REEVES & WADDLE.

Middleton, Dane county, Wis., Jan. 22d, 1861.

I am using one of May's Patent Pumps in place of a deep well pump of another kind, that was often out of order and worked hard. Well 122 feet deep, 72 feet drilled in solid rock, and pump placed 101 feet from surface. Its great strength and simplicity pleases me, and am surprised and gratified with the large amount of water raised with little labor, 6 to 8 full strokes of the lever filling a bucket. I deem it one of the most valuable improvements of the age for raising water.

JOHN TRACY.

Center, Rock county, Wis., Feb. 27th, 1861.

Pumps, With Engines.

I am using one of May's Patent Pumps and Self-Regulating Wind Engine (or Mill) on one of my farms near Janesville. Well 83 feet deep. Pump and mill used together, or may be separated in a moment. One to two hours daily is sufficient to pump water for my stock. Also, the pump works very easy by hand and is the first one, after trying different kinds, that gives me *entire satisfaction*. Having no *bolts, packing, suction pipe, or pumping rods*, and being made *heavy* and *strong*, think they must be very durable. A. HOSKINS.

Janesville, Jan. 11th, 1861.

I am using a wind engine, and pump of May's patent in a well 65 feet deep. I deem them very valuable improvements, and agree with Mr. Hoskins in the above expressed opinion. I had been using a Seneca Falls pump that did not answer my purpose.

WM. SCHENCK.

Bradford, Rock Co., Wis., Jan. 24th, 1861.

Engines.

Rock Terrace, Wis., Feb. 6th, 1861.

Since November 1858, I have been using one of May's Patent *Wind Engines*, pumping water from a well 186 feet deep. The Engine is a powerful one, often pumping fifty barrels of water per day. It stands 110 feet from the well and the power is communicated from the Engine to the well, underground.

I deem these Engines of great value, saving a vast amount of hard manual labor, and as their merits are understood, think they must come into general use.

J. V. ROBBINS.

These pumps and engines have taken first premiums when exhibited in competition at state and county fairs.

Write for price lists &c., and if estimates are wanted give depth of well—open or drilled, and amount of water required. Address as above.

☞ Also for sale, the Patents in the unsold territory for Badger's Portable Grist Mill, Gilmore & May's Rock Drill, Stone Dressing Machine and Quartz Rock Crusher, and Nash & Cutts' Grain Separator. All late Patents, are meritorious and sell freely. Address,
